START CROSS EXAMINATION OF GRAY IN SNYDER MURDER

Gray Describes Murder Scenes In Snyder Home

Witness Accuses Mrs. Snyder Of Being Aid In Brutal Crime

SAYS WOMAN HIT FINAL DEATH BLOW

Jury Listens Intently To Sordid Story Told By Defendant

By JAMES L. KILGALLEN
International News Service Staff Correspondent

COURTHOUSE, LONG ISLAND CITY, N. Y., May 5.—Cross-examination of Henry Judd Gray, self-confessed slayer of Albert Snyder, was begun at 12:10 p. m. this afternoon by Dana Wallace, counsel for "the defendant Snyder".

Gray had been under direct examination for exactly 10 hours, during which time he had related the grisly details of the brutal slaying of Snyder, implicating his co-defendant and former sweetheart, Mrs. Ruth Brown Snyder.

He said that he not only whacked the sleeping Snyder with the iron window weight, but that Mrs. Snyder dealt her husband the final deft blow. This story he told late yesterday. This morning he told how, after the grisly deed was done, and Snyder lay dead, he and his paramour tried to "cover up" the murder and deceive the police.

HEY! HEY! FOR THE "ZAMBA"

Tina Chirardy, just arrived from the continent, where she has been dancing in Nice, Monte Carlo and Paris, is demonstrating the "Zamba" an exotic Portuguese dance to the United States which she says will replace the Charleston and Black Bottom. She dances for the Queen of Spain each summer and possesses an antique shawl, two tortoise shell combs and several royal decorations presented to her by the queen. Above, with Pucci Chirardi, she is doing the third movement of the "Zamba."

United States Informs World That War Debt Issue Is Closed Book

Secretary Kellogg Sends Curt And Brief Note To British

Look Upon Mellon - Hibben Correspondence As Purely Domestic Discussion

By GEORGE R. HOLMES
International News Service Staff Correspondent

WASHINGTON, May 5.—The United States informed the world today that the matter of international war debts is a closed book, so far as Washington is concerned.

This is the practical effect of Secretary of State Kellogg's curt note to the British government, answering a formal communication from London which sought to make a controversy out of an exchange of letters between Secretary of the Treasury Mellon and John Grier Hibben, president of Princeton.

"The government of the United States regards the correspondence between Mr. Mellon and Mr. Hibben as a purely domestic discussion, and does not desire to engage in

(International News Service)

VICKSBURG, Miss., May 5.—What's in a name?

The second break in the Louisiana levee in two days occurred at a point almost directly opposite the town of Hard Times, a tiny village in Tensas Parish, which had never had a day's bad luck in its life until the levee broke.

The devouring Mississippi poured into the hapless village and on its destructive way with a mighty roar to the next town. The next town was Waterproof, a village of 325 souls immediately south of Hard Times. Both now are under water.

Flood Refugees Being Cared For Near Vicksburg

Army Of Homeless Being Increased Hourly In Southern City

FIVE CAMPS BEING MAINTAINED NOW

Boats Continue To Ply Back And Forth In Rescue Work

By LAWRENCE SULLIVAN
International News Service Staff Correspondent

VICKSBURG, Miss., May 5.—From north, south, east and west the broken, haggard lives of homeless and hopeless continued today to converge upon historic Vicksburg.

More than 16,000 were in five camps about the city before noon, and still the motley fleet which is Louisiana's salvation rushed back and forth across the Mississippi's inland sea to bring it yet more from the levees, the housetops and the trees.

For 10 days Vicksburg has been receiving flood victims with open arms. Stunned by the enormity of the task which has been thrust upon her, she is yet calm and resolute in her purpose to care for all who come to her for food and shelter.

The refugee registration at Red Cross headquarters is only a little short of the normal population of the city. Regular business for the most part goes by the boards, while shopkeepers, professional and business men, tradesmen and servants devote themselves to their places in the great relief machine which has sprung up in the city. Housewives are busy with their task of providing clothing for the utterly destitute in the camps. Business men and tradesmen have taken over the matter of supplies and shipments, professional men are looking after sanitation and sickness in the camps.

Mr. and Mrs. Lewis Dean and son Pearson, Arlington avenue will leave next week for Rochester, N. Y., where they will spend the summer.

Negro Attacker Is Lynched And Burned On Funeral Pyre By Mob

SECOND LYNCHING ACT IS HALTED

White Youth Is Accidentally Shot As Mobs Parade Through Negro District

(International News Service)

LITTLE ROCK, Ark., May 5.—Armed troops patrolled the streets here today to prevent a race riot following the lynching of one negro, the beating and threatening lynching of a second and the wounding of a white boy by mobs that took control of Little Rock last night.

John Carter, 38, negro, was lynched and his body thrown on a funeral prye in the negro section, and a second negro was found to be armed and was severly beaten only to be saved by a white man who pleaded with the mob to let him put him in jail.

Youth Is Shot

Robert Love, 18, white youth, was accidently shot by the mob while parading through the negro section firing indiscriminatingly.

Found hiding in a tree, Carter confessed to the mob that he had earlier in the day attacked Mrs. B. E. Stewart and her daughter as they drove into Little Rock.

Mrs. Stewart was taken from the hospital by the mob, identified the negro positively, and stood thirty feet away and watched him hanged

Red Cross Announces Plan To Raise Local Fund For Aid

Big Public Event To Be Arranged For May 17 At Cathedral

Spurred to action by the crying need for help in the Mississippi valley, the Lawrence County chapter of the American Red Cross has decided on a plan to raise funds which should prove attractive to the people of the county, offer them a night's real entertainment, and at the same time raise funds for the sufferers in the Southland.

A charity ball and Mardi Gras will be held in the Scottish Rite Cathedral on the night of Tuesday, May 17, and from the plan as announced, it is going to be a night this county will not forget. Every attraction known to the Mari Gras will be present, the ball room will be utilized for dancing, the auditor-

FLOOD FUND IS MOUNTING

More Contributions Being Made To Local Red Cross Fund

Each day sees more contributions added to the Mississippi Valley Relief fund being raised by the Lawrence County Chapter of the American Red Cross.

The people of Lawrence county are beginning to realize the horror of the catastrophe of the Mississippi and with the usual Lawrence county open handedness are sending in their money.

Speer Marousis, president of the New Castle Ahepa announced a $20 subscription to the fund. The Ahepa is composed of Grecian-Americans and while it is comparitively new in the family of fraternities here, the organization feels that it should have a part in the work of alleviating the suffering.

Mr. and Mrs. T. C. Post, sent in a check for $100.00 and on top of that the New Castle Box company, of which Mr. Post is the general manager sent in another $100.00. The News company contributed $100.00 and Robert M. White $50.00. From Wilmington came a contribution of $58.50, from the Willing Workers Class of the Second United Presbyterian church $10.00, and from the Dorcas Chapter of the Wampum Presbyterian church $10.00.

Lawrence county has an obligation to fulfill in the matter of Mississippi Valley Flood Relief. An obligation that should be paid, and undoubtedly will be. Contributions will be received in the office of the Lawrence County Chapter, American Red Cross, Room 301, Temple Building, East North street, and no contribution is too small or too large to be gratefully received.

DARING FLIGHT ACROSS ATLANTIC IS IN PROGRESS

(International News Service)

RIO JANEIRO, May 5.—A daring flight across the South Atlantic is in progress today, according to reports received here.

Defying orders of the French government that he make no attempt to fly across the Atlantic without floats on his plane, Captain St. Roman, French aviator, is reported to have hopped off from St. Louis, Senegal, early today for Pernambuco.

The dispatches state that the flight is "unofficial" and Captain St. Roman is making it on his own responsibility.

Company B Will Be Mustered In, May 13

Company B, 125th Engineers, of the state military forces, which has been in the process of formation here for several weeks, will be formally mustered into service on Friday evening, May 13, it is announced this afternoon.

The new military unit, which is the second company of mounted engineers to be organized in the state, the other being at Altoona, will be inducted into service with an excellent outlook. The company has been recruited of able material and it is believed that it will prove one of the leading military units of the state forces. Those who have joined the new body are enthusiastic, and development of the Company has been most pleasing.

About 50 men will be officially enrolled in the troop when the state mustering officer arrives to carry out the ceremony.

Lieutenants Keely and Walter, who have been in charge of the work of recruiting the new company, were in Philadelphia, May 2, taking the examination for commissions in the Engineers.

Leaders Endorse Projects Receiving Highest Number Of Votes

New Castle took another step forward when the program of projects for the Chamber of Commerce was finally and officially adopted. Thus is New Castle's expansion movement officially launched, and expressed in concrete terms of a program of activities which calls for a greatly expanded Chamber of Commerce, both in money and in man power.

Upwards of 5,000 replies were received at expansion headquarters in response to the questionnaires mailed to citizens, and in addition hundreds of coupons clipped from The News, in which readers voiced their desires in the carrying forward of the suggested program.

David S. Pyle, general chairman of the expansion movement, said "that the voting on the projects was very much greater than any of the officers or the committee anticipated, and that it was an indi-

The croakers croak in a minor key, and they sit around and belittle, but the workers are busy and to the clack, they heed not a jot or a tittle. For the fellow who wants his town to grow, has his hammer hidden away, and he totes a horn that is big and loud and continues to footle and play. He does his work with a cheerful grin, and results are the thing he wants, and if business is poor he doesn't sit down, he gets out and he hunts and he hunts. But the croaker sits on a cracker box and spits at an empty box and sadly moarns that the world is wrong and the country is on the rocks. And the place for him is a golden seat, where the white winged angels play, where he couldn't find anything to pan, its sixty two today.

LOOK THESE OVER THEN "ASK ME ANOTHER!"

If your wife wakes you up some A. M. and after brushing a handful of hair out of her eyes mumbles "ask me another" don't reach over and crown her. She's merely another disciple of the latest craze, the "ask me another craze".

About three times a year somebody breaks out with some fad that has the country by the ears for a time and then disappears. For a time we were in the throes of Mah Jong. Everybody was playing the game or whatever it was, and then came the cross word puzzle that was responsible for more new cuss words than golf and fishing combined.

And now the "ask me another craze." Publishing houses have printed books on it, setting out in detail questions and answers which inform you how much ivory there is in an elephant's tusk or a saxophone player's head; just when Washington crossed the Delaware and why, and the exact spot where Aristotle took his first chew of fine cut.

There's no age limit or closed season. The American public is being cluttered up with a plethora of facts they will never use, and the barber shops are full of customers who can tell you when the Dead Sea died, or where your fist goes when you open it.

Most of the questions asked in the "Ask Me Another" books are answerable. That's easy. What the "ask me another" hounds should have is a list of questions they can't answer and in response to a widespread public demand, the News prints the following list of questions.

For a correct list of answers, the News will send free of charge a time bomb guaranteed to explode when opened. Here are the questions. Send in your answers right away. If you wait you may be on your way to Warren.

Hanover Township School Issue Is Ready For Jury

Judge Will Deliver Charge To Jury In "Million Dollar Graft" Scandal

(International News Service)

WILKES-BARRE, Pa., May 5.—Judge Henry A. Fuller today will deliver his charge to the jury which has heard the first case of a series growing out of the "million dollar graft scandal" involving seven ousted school directors in Hanover township and a number of contractors and architects, of Wilkes-Barre.

Both prosecution and defense ended their pleas to the jury late yesterday in the case which is considered as more or less of a test of the commonwealth's evidence against the ousted directors and associates. Eight-four indictments were returned by the last grand jury in connection with the graft charges and the verdict in the first case will determine the course of the state in those remaining.

The trial has centered about an $8379 road bill and dump contract at a school in Hanover township. It is charged that the contractor could have done the job for less than half the amount and the state attempted to establish the fact that $4,000 had been handed back to the school directors who pocketed it.

The defendants in the first case are W. H. Morris, W. B. Delaney, J. J. Curry, John A. Reilly, P. J. Lenahan and David J. Richards, ousted directors; Ralph M. Herr, school district architect; and Herman Mallander, contractor. Patrick F. Boyle, seventh member of the ousted board testified for the state.

The negro's body was tied behind an automobile and dragged through the main section of the city and then through the negro district. The automobile was followed by more than a thousand members of the mob.

In the heart of the negro section, the body was placed on a bonfire and burned to a crisp.

Negroes fled as the mobs marched through the streets for hours.

Governor Martineau, called out troops and these were patrolling the streets today.

U. S. INFORMS WORLD WAR DEBT ISSUE IS CLOSED BOOK

(Continued From Page One)

any formal diplomatic exchanges on the subject", said Kellogg's note.

Designed as Rebuke

For brevity and bluntness this government's icy rejoinder to the British communication is almost unprecedented in diplomatic exchanges between London and Washington. It is, in effect, a disguised rebuke to the British foreign office for taking up something that was not addressed to the British in the first place.

It constitutes, as well, the second diplomatic slap that Washington has handed London this week, the other occasion being President Coolidge's advice to the American people to disregard much of the British-colored news that is now emanating from London and the far east concerning America's Chinese policy.

While the Kellogg note made it clear this government has no intention of arguing with the British foreign office over the merits of the British-American debt settlement, the contentions advanced by the British were promptly answered by Secretary Mellon in a public statement. He stood pat on his letter to Mr. Hibben, and using the same figures cited by Winston Churchill, the chancellor of the exchequer, showed that by next year Britain will be receiving from her debtors more than enough money to make the annual payments on Britain's debt to the United States.

This was the self-same point made by Mellon in replying to the debt cancellation plea of the Princeton professor, and on that he stood.

Well Satisfied

While regretting the reappearance of the debt controversy, administration officials on the whole are just as well satisfied to have it come up and be disposed of at this time. It has expected for some time that some of the foreign debtors would take advantage of the occasion afforded by the present economic conference at Geneva to attempt to reopen the agitation for debt cancellation.

The British government's action in raising the question before the economic conference had a chance to do so has thus afforded the American government the opportunity it desired to slam the door once and for all on this controversy. The Kellogg note constitutes an icy reminder to all Europe that this government regards the question of war debts as having been disposed of, and will not consent to engage in argument or recrimination over a dead issue.

Town Talk

Matthew Gunton of the New Castle Zoning Board of Appeals says that the matter of zoning is being given attention in many cities at the present time. Many inquiries as to the measure in effect here, its workings, and the other features of zoning are being received from other cities. New Castle is in the head of the vanguard in the matter of zoning, it would appear. Mr. Gunton is giving the information desired, and in this way is aiding in the work of advertising New Castle.

New signs are being posted on the main thoroughfares of the city, citing the fact that the speed regulations must be observed, police report.

In the work of erection of the walls of the Castleton, new hotel at the corner of North Mercer and Falls streets, a new idea is being used in order that slight rainfall does not interfere with the work of the bricklayers. Awnings are draped down over the scaffolds on which the bricklayers are at work.

From observations one would be led to believe that not all of the petting parties are being held in the districts outside of New Castle. Autos parked along some of the streets of the city in the outskirts these spring nights would give the impression that some of the petters have adopted the city streets.

Workmen who are grading Sumner avenue through the old Berger woods property from Highland to Albert streets are having some task. They have been compelled to remove a large number of trees and tree stumps in the course of cutting the street through.

It might not be a bad idea in this era of city expansion and discussion of things that would help to advertise the city to put some higher power globes in the Washington street curb lights. Some of the lamps look rather dim at the present time.

Community Chest payments for another period are due. Statements to subscribers have been sent out during the past few days.

Congestion to Cascade Park on East Washington street should be somewhat eliminated this year. There are now three routes of traffic to the park, out East Washington street, down Mill to Lutton and up Lutton to East Washington street, and down Mill to Long avenue and out Arlington avenue. It might not be a bad idea to mark these routes for the benefit of strangers in the city.

the young bride's pillow so that, at first, murder was not suspected.

Denies Implications

An autopsy of the bride's body, buried at Detroit, was ordered when her death was questioned.

The first Mrs. Glazer has denied implication in either shooting and has declared: "No matter what anybody says, I didn't write that 'suicide note'." She has admitted that Mrs. Ida Glazer, the second wife, did file two complaints against her, alleging she had been "snooping in the windows", but that she went to court and proved she was "all right".

The first Mrs. Glazer adds: "Once I was in the back yard to talk to Joe about his wife's second complaint and she (the bride) leaned out of the window and shouted: 'Get away from him. He's not your man now! He's mine!'"

Because of an odor of chloroform police have advanced the theory that the death bedroom had been saturated with chloroform prior to the fatal shooting, drugging the husband and his bride.

Cline had been at work only a few hours when the accident occurred, his predecessor having been removed after an argument between the superintendent and some of the men.

Boy Governor To Rule Pennsylvania For Hour

(International News Service)

HARRISBURG, Pa., May 5.—For one hour this afternoon John S. Fisher will release the reins of chief executive of the commonwealth and Pennsylvania will be in the hands of a boy governor.

George W. Dress, Jr., of Harrisburg, having been elected by high school students of the capital city in a heated election is scheduled to take the oath of chief executive at 3 o'clock. It will be administered by Governor Fisher.

Following the ceremonies on the steps of the capitol at which time "governor" Dress will deliver his inaugural address, the youthful "governor" and his private secretary, A. Mitchell, accompanied by Governor Fisher and Secretary A. Boyd Hamilton, will go to the private executive office and rule supreme for one hour.

At the same time that young Dress is ruling the state youthful office holders will be found in the various branches of the city government.

Waits At Mine Until Brother's Body Is Found

Although informed by Robert M. Lambie, West Virginia bureau of mines director, that "there is not one chance in a million that your brother or any other entombed miners will come out alive," the sisters are away from the mine mouth for only a few hours each day.

M. J. Sullivan, their father, lives in Latrobe, Pa. He will wait until his son's body is found before coming here.

EXPANSION MOVEMENT PROJECTS DETERMINED

(Continued From Page One)

cation of an unusual amount of interest on the part of citizens in New Castle". With such interest crystallized into action we can do for New Castle what other cities are doing for themselves, and those of us who are sincerely interested in making this movement an outstanding success are more than pleased, and the efforts which have been made to date have been gladly and cheerfully contributed by every business man actively connected with the movement.

The projects which have been endorsed by over 5,000 voters, and which take first rank among the eight which have been suggested are:

Industrial and Commercial Development

This project received the highest number of votes on the entire list, and with but a few exceptions was almost chosen for first place unanimously.

The adoption of this project will involve the expenditure of money not hitherto included in the Chamber program and calls for the making of a comprehensive survey of New Castle to decide what industries New Castle is best equipped to expand in, and along what lines it should concentrate most in the development of its industrial structure.

The present industries are to be given every support and assistance, with a view of removing all difficulties now in the way of their expansion. Officials of the Chamber and members of the projects committee feel that the wisest and most constructive steps to be taken from the beginning are the removal of factors which now keep or have kept our present industries from expanding their capacities and employment. Subsidiary manufactories to the present plants, or those which are equipped to take products manufactured here in an unfinished state and finish them, is another step in the industrial development of our industries which will receive immediate attention.

"New Castle must have a representative to present its story and advantages over other cities to manufacturers who are looking for a new location", said Mr. Shenk today. "This will mean the engagement within the near future of an industrial salesman, acting under the direction of the Chamber of Commerce and representing New Castle the year round, whose sole business it will be to build up and increase industry and employment in New Castle". Mr. Shenk, who has been assisting in the development of New Castle's expansion movement, has recently been engaged to act in the capacity of industrial commissioner at Davenport, Ia., where, he says, "a program of the character of that to be undertaken in New Castle has been in operation for almost two years with splendid success. "New Castle will be the 139th city to enter this field of industrial development along the lines now determined, and has taken the most constructive step forward in its history", he stated. "It cannot go back, and its future is bright. The city is on the threshhold of a new era that will bring prosperity and happiness to increasing numbers every year."

The project receiving the second largest number of votes is

Selling New Castle

This project contemplates selling the city to itself first and to the nation afterwards. If New Castle cannot get sold on itself, it cannot sell others to it. Publicity by means of articles in national publications, newspapers over the nation, special mailings of folders, pamphlets, booklets, etc., at stated periods through the year and participated in by the entire community will be some of the devices employed to get New Castle in the limelight with other industrial centers. Everybody a personal salesman for New Castle, in and out of the city, will stimulate a tremendous interest in the city among strangers and visitors and create the atmosphere of good homes, good wages and excellent living conditions around the city that is necessary in attracting new people and industries.

Third highest project is:

Conventions

To utilize all the civic facilities of our hotels and the Cathedral in bringing and entertaining many conventions every year. As a direct means of bringing new people and money into the city, conventions serve this end more profitably than any other medium.

Fourth project is agriculture, with a survey of Lawrence county, to determine what particular types of crops are best suited to this area and the assistance and encouragement of the farmers in New Castle's natural trading area.

Fifth Project Is Civic Activities

This includes the development and maintenance of all local forms of progress and beautification such as parks and playgrounds and recreational facilities; proper highway signs in the community; marking of street intersections; study and betterment of traffic conditions; creation of Lawrence county-New Castle Safety Council; city planning and annexation of suburbs, etc.

Give Them Time!

Little Billy's mother was phoning a friend about the boy's case of chickenpox. She informed the friend that Billy was broken out on his body but his face was still comparatively unaffected.

"Tell her they're still hatching", interrupted Billy.

Conclusive Proof

"That", said Mr. Newrich, pointing to a painting in his library, "is a magnificent art treasure".

"How do you know? By the artist's signature?"

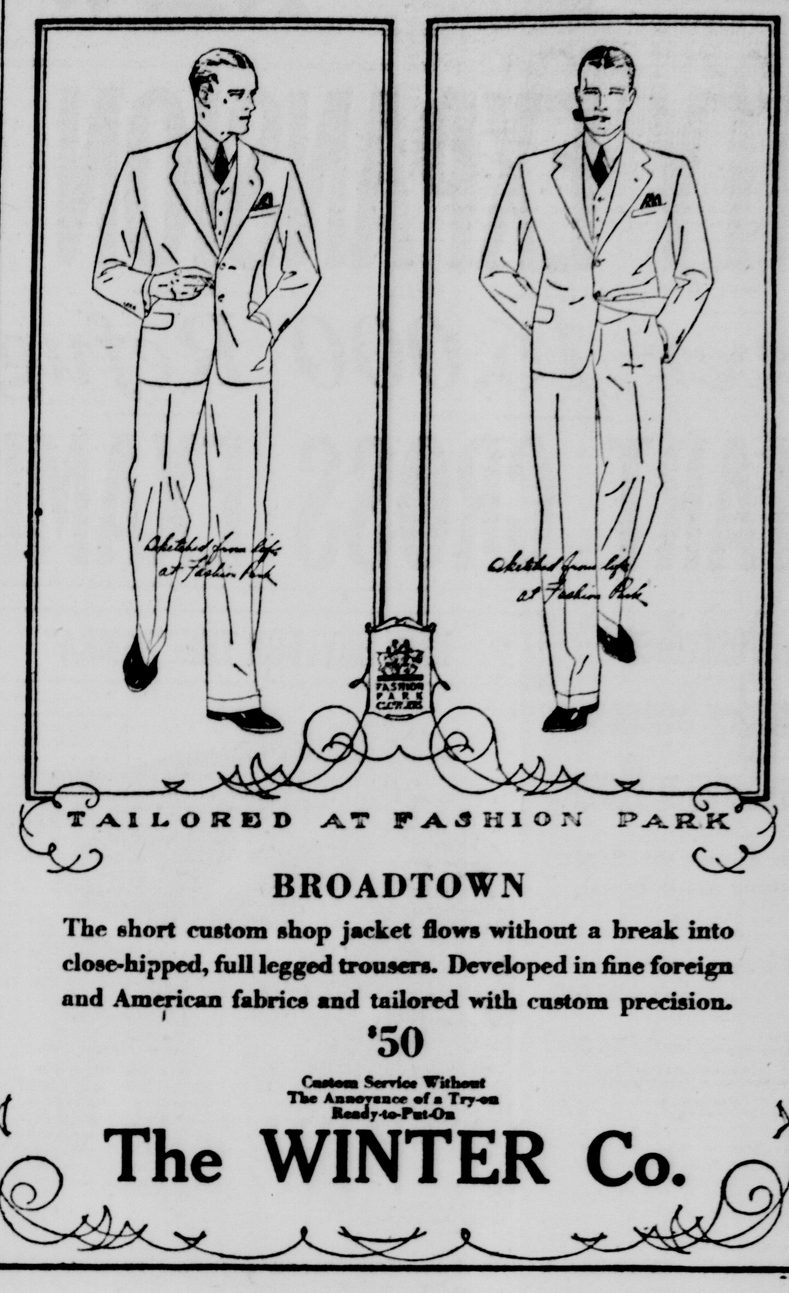

"No; by my own signature on the check I gave the dealer."

Really!

"Speaking of inherited characteristics, I knew a man once whose father hanged himself with a rope."

"Did the son hang himself, too?"

"No, he became a tight-rope artist."

IF you like to have the new things first . . . as we do . . . come in and see this clock. It brings entirely new standards in timekeeping.

The Sangamo (electrically wound) Clock has a beautifully built movement with a full-jewelled watch escapement. The mainspring is continually wound by a small precision motor, built in the movement. Connect it into any convenience outlet or light socket (alternating current); the motor winds the mainspring in about five minutes, thereafter keeping it always at uniform tension.

Many Sangamo (electrically wound) Clocks are now running with less than one minute variation per month. Ordinary current interruptions don't stop the clock . . . Handsome models in bronze, mahogany, walnut.

POLICE BATTLE WITH FASCISTS

BY H. R. KNICKERBOCKER
International News Service Staff Correspondent

BERLIN, May 5.—Berlin police have been ordered to prepare for all contingencies and to remain in their quarters constantly during the next four days, as the result of a battle which lasted well through the night between 300 police and 3000 Fascists.

May 8 has been set as the day for a demonstration by the "steel helmets," a reactionary organization of war veterans, and the police have reasons to expect that clashes may be expected.

ROOM AT THE TOP

IN A few short weeks hundreds of thousands of boys and girls will be graduated from high schools and colleges and face a world in which opportunities are almost endless. For it is one of the paradoxes of civilization that the more opportunities are utilized, the more new ones are thereby created.

The automobile, for example, has created a new field for the exercise of human ingenuity, while the byproducts of this invention are amazing in their reach and scope. It might seem to the young graduate that everything worth while has been invented, discovered or utilized. Yet there is not a thing that contributes to human welfare and comfort, not a stick of furniture, not a household necessity, but is capable of improvement.

There is still a big field for human enterprise in the trifles which others pass by. Men have made fortunes out of the commonest and meanest things; scraps of leather, slag, junk, grit, and the byproducts of mine and mill.

Opportunities? They are all around us. There is power lying everywhere waiting for the observant eye and the ingenious mind. Find out what the world needs and then supply that want. The patent office at Washington is filled with useless inventions and discoveries that have wasted human time and energy without adding a single dollar of wealth to the world. Don't add your bit to this mountain of wasted effort.

The greatest hindrance to advancement in life is the lack of observation and the inclination to take pains. The great things of the world have not been done by men of large means but of large vision. They have usually started where they stood, as Edison began his experiments in a baggage car when a newsboy.

There's plenty of room at the top. The history of America seems like the last effort of providence in behalf of the human race. Never before were such fine openings, chances and opportunities. This is especially true for girls and young women. Emerson said, "The world is no longer clay, but rather iron in the hands of its workers, and men have got to hammer out a place for themselves by steady and rugged blows."

NOMINATION BY MAJORITY

BECAUSE it has never been able to muster for its candidates a two-thirds vote of the Democratic national convention, a wing of that party is making another pre-convention fight to have the convention rule changed from selection by a two-thirds vote to nomination by the majority.

In the present discussion looking to change of the rule by the Democratic convention next year it has been pointed out that the Republican party nominates by majority vote with good chance of victory at the national election.

But the Republican system did enable Blaine to win a nomination which was followed by his defeat by Cleveland in 1884. Blaine could not have carried the Republican convention by a two-thirds vote. The Progressive split in 1912, which resulted in the election of Woodrow Wilson, had its seeds in the rule.

There is little in political history, however, to indicate that the Democratic party would have fared better had majority been substituted for two-thirds rule. Champ Clark, instead of Wilson, would have had the Democratic nomination in 1912. And McAdoo would have carried the convention in 1924. Here are two instances where nomination by two-thirds vote benefitted the Democratic party.

Certainly a candidate who cannot obtain the support of two-thirds of the delegates at the convention of his own party has little chance of controlling voters of another political faith. The issue is another of the many which promise to split the Democratic party next year into as many factions as Jacob's coat had colors.

NO MORE CO-EDUCATION AT SEA

AFTER nearly eight months at sea as "a floating university" the steamship Ryndam has returned to New York. She sailed as a co-educational institution; but next autumn boys only will be taken, and girls will sail on another vessel. Criticisms which were resented at the time are thus justified. The dean of the faculty admits that there were disagreeable incidents en route. On one accasion, after the students had desecrated a temple in Japan, he assembled them on deck and told them that they had disgraced their country and were unfit to be Americans. They had no doubt learned something during the cruise, but not enough to respect foreign customs.

Whether the girls or the boys were the harder to manage we are not informed. But it is clear that co-education, however well it may work on land, is a failure at sea. The projectors of the tour might have foreseen this. In the intimacy of shipboard young people of opposite sexes are more inclined to pay attention to each other than to their studies. The intellect is overcome by the heart. The idea of combining study with travel, an excellent one in itself, will doubtless prove more feasible when there are fewer distractions. The professors should have an easier time on the next trip, though five hundreds boys in foreign ports may still be a handful.

In spite of the severity of the Dean's comments, it is quite likely that these young people behaved quite as well as some of their elders do in similar circumstances. Many tourists, including those who are not Americans, show little consideration for the feelings of the natives in the strange lands they visit. Thus "evil is wrought by want of thought as well as want of heart." Perhaps the students on the Ryndam have received a lesson in manners by which they will benefit if they go on their travels again in maturer years.

The more we see of the common people, the greater the pain given us by the uncommon ones.

We blew into Washington, D. C., Monday evening and Secretary Chilton had us all fixed up at the New Willard. The delegates to the meeting of the United States Chamber of Commerce were coming strong about the time we landed here.

We met William Kennedy, the Scotch laddie who was secretary of the New Castle Board of Trade during the war. You all will remember him. We held a great gossiping fest about New Castle and its wonderful people. He still thinks New Castle the greatest city in the world. Same on the sides.

We also met Dean Thompson of the University of Chicago. He will be remembered as one of the speakers at the community dinner held in New Castle last fall. He said he was glad to see me.

That community dinner we held in New Castle was a history-maker for our fair city. When it becomes known in a group of gossipers that someone is present who was at that dinner interest is aroused at once, and when they behold the chairman of that event in the flesh they sure do ask a lot of questions. It was the greatest dinner we ever pulled off in this country. When they compliment me I always wish the chairman of the committee and the committeemen and the ladies who furnished the dinner were present so they could be seen, and then the people would know really how the great banquet was the success it was.

We attended a theater last night. Price of admission, $1.10, and more like our speed. One bird pulled off a joke we remember. He said the long skirts used to pick up a lot of germs and things. The other bird in the act said: "Just think of the things the short skirts pick up". Not bad.

Straw hats are being worn here plentifully just now. The season is further advanced here and those who wear the straw thatch are not considered nuts and rushing the season.

We attended the session of the United States Chamber of Commerce on Tuesday morning at 10 o'clock. The meeting was held in the Chamber of Commerce building and this building cost three million dollars and was built by the business men of America. About two thousand delegates were at this meeting. This building is known as "The Home of American Business". It was some years in building and is a wonderful piece of work. New Castle men contributed to its construction and we were proud of the fact when we beheld its beauty and conveniences. Men and women attended the meeting.

Some might ask what is the reason for the United States Chamber of Commerce. It is the national headquarters for several thousand Chambers of Commerce in America. It furnishes information and advice on every subject known to American business. It sends its representatives all over the country to help try to solve the problems of all Chambers of Commerce. It keeps its eye on Congress and keeps thousands of bills from ever getting into Congress. It is the watchdog of the people in Washington. To those of us who know a little about this great organization we wonder how it would be possible to get along without it. It is more than wonderful and we wish everybody could get an idea as to its value to civilization and for the help of humanity in general in this country.

We came here from New York to get the real touch and contact with the United States Chamber of Commerce. We have made several visits to Harrisburg and have the contact with the State Chamber there and we consider it of great value to the New Castle Chamber. No president of the New Castle Chamber has ever attended these meetings, and we are here to see what advantages we can get and profit by for New Castle. For fear some of the brethren will grumble we will state that we are paying our own expenses and it is costing the New Castle Chamber nothing except my absence, which I am enjoying most enthusiastically.

We are promised great doings for tonight. President Coolidge is going to speak to the Chamber, and after that there is to be a great ball. We have an idea if the weather does not get too severe we will get through the evening fairly well if we have an early dinner.

Washington is taking the flood in the South very seriously. In every hotel lobby women in booths are taking up money to be sent to those in dire distress in the South. Many of the southern delegates either have not come or have gone home after getting here on account of the terrible floods.

The weather has been scandalously hot here and those who have to depend upon winter clothing suffer accordingly. The trees are out in full leaf and the buckeye and other kinds of trees are in full bloom.

The local Red Cross chapter has been asked to double its quota of $10,000 for flood sufferers in New Orleans. The need is urgent. Money is wanted, not sympathy; action is desired, and quick action. Send in your money at once. Let us show the flood sufferers that our heart is right and our pocketbooks express our sympathy.

News of a cotton probe won't prove alarming to the women. It won't involve any of them.

The traffic problem would just about solve itself if everybody was ordered off the streets but the automobiles.

A good many men who cut up with other women think they are doing it on the sly when it is in the diary of every woman he knows and every time they talk about him they add a little to it. And it is the same way with women. No one is smart enough to commit sins of that kind and get away with it. They don't all get killed, but the tongues wag just the same.

President Coolidge asks Americans to go easy on believing the reports that come from China on the affairs there. Other nations are trying to hurry up American participation in the oriental affairs, because it is America that has the money bag and will foot the bills.

Bad Flood News.
Government Should Pay.
A Magician Speaks.
Labor—British, Italian.

By ARTHUR BRISBANE
(Copyright, 1927, By N. Y. American, Inc.

More bad news from the flooded regions. Floods in the sugar belts bankrupt farmers. Thousands of acres of cotton destroyed. The fact that other cotton will sell for a higher price is small comfort.

Demonstrations of heroism in this national disaster have been innumerable. Consider the diver, weighted down with one hundred pounds of lead, struggling against a powerful sixty-eight-foot flood to plant dynamite under the ledge of a levee.

• • •

The government has wondered what to do with surplus taxes. It might use the first few hundred millions to indemnify victims of the Mississippi flood. If the government had used its brains and money and had done its duty, in year past, the flood would not have occurred.

• • •

For a change a fortune teller and "magician" speaks the truth. Looking into his crystal ball or deck of cards, he says Mrs. Snyder and Gray, accused with her of murder, hypnotized themselves and each other and did not know what they were doing.

That is the best description of the "important crime." However, rough justice through the ages has made it a habit to deprive of life or liberty those possessing the faculty of auto-hypnotism. That has caused such hypnosis gradually to decrease.

• • •

Mussolini also seems to understand hypnotism. Twenty thousand farm laborers in one district accept without murmur a cut in their pay. They wish to "co-operate with fascism," and make it more efficient.

Ancient Greeks, two thousand years and more before Mussolini started, showed the same quality. Asked to decide whether a great sum should be divided among the citizens or kept for national defense, they voted to use the money for defense.

• • •

British labor is excited about a proposed law to prevent national or "general" strikes.

Labor says it has a right to do as it chooses. Britain's government says: "You have no right to tie up the nation."

The world at large admits that it would be outrageous to allow a minority, even of union labor men, to rule a nation. British labor will say: "You Yankees find no difficulty about allowing a small minority of capitalists to rule your country." Possibly, but that is something else, and besides we are used to it, and we are ruled on the whole, rather well.

• • •

Professor Roop says "teaching a materialistic conception of the universe is chiefly responsible for student suicides."

If that's true, something should be done about it, especially for students that find thinking a painful, suicidal process.

The administration denies that McMurray will resign as minister to Peking because this government refuses to join other powers in coercing China. The public is interested to hear that McMurray will not resign, but if he thinks he should overrule the opintons of the president and American people, the public also would like to know what reason there is for keeping him in China.

EASY STREET—

Is a road that never seems to get anywhere.
Must be judged by the character it produces.
Is a highway hard to find and easy to lose.
Always looks easier to people who are on some other street.
Is sure to have some rough spots in it.
Produces fewer heroes than the street called "Ambition."
Is seldom crowded with great accomplishments.

Dr. Crane's Editorial

THE ROOT OF THE CHINESE TROUBLE

There is a tremendous uproar in China. Armies are marching and countermarching, battles are being fought and riots are general. Everybody is agreed that one of the difficulties of this matter is the hatred of the Chinese for foreigners and probably they are right.

There is a disposition in all nations to have bad blood toward foreigners. The word enemy and foreigner seems to be synonymous.

From our own feuds in the south we can see that it is natural for people of one community to hate and distrust those of another. They realize the solidarity of the clan, but not the solidarity of mankind.

The root of most difficulties with nations is a simple one. It can be found in the reactions of human nature and traced ultimately to purely natural causes.

The foundation of the difficulty with the Chinese is largely the contempt with which they have been treated by foreigners. Any one who has traveled in the East has noted the supercilious contempt which Englishmen and other foreigners have for the native Chinese.

They will not let them enter their clubs, they frown upon all intermarriages. They do not receive them as equals in society. The better class of Chinese resent it.

There is a better class as well as a lower class of Chinese and it is needless to say that the better class regard themselves as equals to, if not the superior of, other peoples.

They refer to their kingdom as celestial and look with contempt upon the West.

Naturally this egotism is wounded when they are regarded by Westerners superciliously.

The French Revolution of the late seventies was largely due doubtless to the disdain of the higher classes for the lower.

None of the humanitarian efforts of the missionaries nor the official protestations of the governments can do away with the contempt which the Westerners have always shown towards the Chinese.

This rebellion is largely a reaction of that contempt.

The World AND THE Mud Puddles

Let Some Accumulate

The Committees of the several American Universities seeking to raise large Endowment Funds for their respective institutions of learning, ought to take a Leaf from the Book of the Trustees of the Episcopal Church Pension Fund. Yale is seeking to raise twenty millions, John Hopkins forty millions, and the University of Pennsylvania fifty million dollars for Endowment purposes. These are large sums of money, and many of the Alumni of the three institutions are skeptical as to the success of the campaigns.

J. P. Morgan, speaking at a tea in honor of the trustees of the Episcopal Church Pension Fund, of which he is Treasurer, announced that this Fund had grown from eight million dollars to twenty three million, that this Fund now had an annual income of $2,300,000 that the fund is only ten years old. Mr. Morgan went on further to say as follows:

"We have a very nice substantial profit on the accounts which does not appear as yet, but will come eventually. Our first mortgage investment of two million dollars was made when the price of securities was very low, and just as we went into the War. Our profit from that is now about a million, five hundred thousand dollars."

There are some very clever financiers back of the campaign to raise the University Endowments referred to above. Perhaps they are not as clever as Mr. Morgan, and perhaps they are not as optimistic as the House of Morgan has always been concerning American business enterprises, it wouldn't be an idea barren of wisdom for the several universities to place a few million dollars in the hands of the House of Morgan and allow it to accumulate. It is true that the Morgans, son, father, grandfather, back for several generations, have been devoted to the Anglican Church, and the success of the Trustees of the Episcopal Church Pension Fund may be attributed to something more than mere financial devotion. There is nothing, however that accumulates so rapidly as wealth well invested where neither principal nor interest is disturbed for years. The Stephen Girard Trusts, and the Benjamin Franklin Trusts are well known to Pennsylvanians. The amount of the present capital of these two Trusts is almost unbelievable, yet the Benjamin Franklin Trust started out with the modest sum of $1500 and it is now in the millions.

The three Universities have an ever present need for the monies that they are asking their Alumni and the people of this country to contribute, but it would be a mighty good thing if they would set aside just a small part of the endowments which they are now raising, and never touch either the principal or interest for at least a period of twenty years.

CARESSES

When Nellie comes to me at night
And showers me with caresses,
I know I'll shortly have to write
Another check for dresses.

When Nellie smooths my hair away
And speaks of love undying,
I know she's seen some trinket gay
Her heart is set on buying.

Oh, I can read my Nellie's smiles,
They're plain as English printing,
I'm on to all her lovely wiles
And all her ways of hinting.

I know although her kisses still
Are sweet as clover honey
At our age such affection will
Require a sum of money.

And yet I'm glad she plays that game
For hats and shoes and dresses,
Although I'd buy them just the same,
I like those fond caresses.

CHARLES B. DRISCOLL

A CHARM SECRET

A great many women and girls attend lectures and delve into books to discover a means of acquiring that desirable quality called charm. They want to make themselves attractive, especially to men. That is a wholly proper and worthy ambition. Women should naturally desire to be attractive to men. Incidentally, they also like to be attractive to other women. We all like to be loved and admired by those who know us.

There are many beauty doctors and exponents of this and that who hold themselves out to teach women how to acquire charm. I often meet women who have been rendered extremely self-conscious by these teachers of charm. They are continually on their guard lest they do or say this or that thing which their teachers have told them to avoid. They are constantly posing in supposedly becoming attitudes and moving thus and so, their minds occupied most of the time with the lessons they have learned about how to behave in order to be charming.

Permit me, ladies, to disclose to you in a few words the one really important secret in the matter of acquiring charm. I shall put it in several ways, for though the idea is simplicity itself, words are often misunderstood.

Avoid pretense. Be yourself. Act naturally. Do not pose. Be honest. Talk in your own voice, and not in an affected and unnatural tone. Do not try to show off, either before men or before other women. Tell the truth. Never think it necessary to set yourself up as something that you are not. You are much more charming as yourself than you can possibly be when playing a role. Avoid pretense.

There you have it all. Tricks of dress and make-up are all secondary to this primary principle. Whether you have a hundred dollars or a million dollars is not so very important. So do not place yourself in a position where you have to uphold a pretense to wealth that you do not possess. Apply the same principle to all the other factors of everyday life, and see how much more happy you feel, and how much more charming you are to everyone. You will never receive sounder advice as to charm than this, no matter what you pay for it.

Oil City Woman Is Indicted By Federal Jury

Woman Alleged Defrauder By Mail Is Held For Court By Federal Jury Action

(International News Service)

PITTSBURGH, Pa., May 5.—Mrs. Hattie Haslett, of Oil City, today stood charged in a federal indictment, with a scheme to defraud prospective husbands by representing herself as an unmarried woman.

The indictment charged Mrs. Hazlett corresponded with four men telling them all she was willing to marry or enter their employ as housekeeper, or as "might be mutually agreeable to them." Mrs. Hazlett was said to have sought to obtain money under the representations she was unmarried and willing to become the wife of each man.

The men with whom Mrs. Hazlett corresponded were Steve Grassi, San Francisco, Cal., Edwin W. Emery, Lewisburg, Pa., Paul G. Anderson, Jenkins, Minn., and C. Y. Young, Brownwood, Texas.

LOUIS HOON IS IN BIG DILEMMA

Sends Man To "See Mayor"; Man Leaves Town

Almost everyone, man, woman and child here knows Louis Hoon, that he is a sanitary policeman and that he will stand for no violation of sanitary laws. Not Louie!

He claims to have found out that Frank Protto had taken a mattress which had all the appearance of beinsanitary from his boarding house to a vacant lot—to get rid of it.

Louie went after Protto and ordered him before Mayor Dunlap.

Louie is angry today because Protto didn't obey him. Instead he cracked his fingers twice, stamped his heel and decided he would shake the dust of Mahoning avenue from his shoes—so to Woodlawn he went—says Louie.

Policeman Hoon is vexed.

He threatens to take him into custody here, there or anywhere.

Hoon believes that when he gives a man a chance to walk to the police station without the eye of a policeman watching his every move he should play the part of a gentleman.

Judging from Protto's desertion of New Castle he has other ideas about such matters. As a result New Castle's population is one less.

BIG CHARITY BALL AND MARDI GRAS TO AID FLOOD SUFFERERS

For Everybody

A meeting of the Executive committee of the Red Cross is being held this afternoon for the purpose of oiling up the machinery preparatory to getting under way and by tomorrow morning the project will be out under a full head of steam. Instead of being a Red Cross project, this will be a community affair and several hundred men and women of all race, creed and previous condition of servitude will be asked to put on the harness of service.

The chapter wants to clear at least $5000.00 on this night of hilarity and the go-getters are brushing the cobwebs from their top decks in an effort to bring out some new ideas for raising money.

Tickets will be printed immediately and these tickets will cost one dollar each. Each ticket will admit one person to the building and the ball and the dancing will be from nine in the evening until sometime the next morning say two or along about that time. This means two dollars per couple and for the two dollars a lot of fun is guaranteed. If present plans materialize the production in the auditorium will be ticketed also, and a small charge put on for these.

This plan is thought to be the better plan for raising money. A campaign was suggested in which people would be asked to contribute. More mature thought developed the idea that while the money was being raised it would be just as well to give the folks a run for their contribution and the plan set out above was decided upon.

Mayor William H. Dunlap has been named as the general chairman of the evening, and Mayor Bill is going to have more committees working than he has automobiles parked on Washington street on a busy Saturday night. Under him will be committee chairman, workers, barkers, solicitors, and what not, all in the harness for the purpose of putting this over.

The tickets will be placed on sale sometime Friday, and nobody will be exempted from being solicited. Whether or not they want to go is not an issue, the big idea back of the whole thing is to raise money for the flood sufferers in the Mississippi valley.

Lack of space prevents any more description of the charity ball and Mardi Gras at the present time, but from now on until May 17 there is going to be more action in this city and county than there is around a night club at two in the morning.

Elopers Steal Auto In Mercer County To Catch Train Here

City police today reported that a love-sick couple, fearful they would not have time to reach New Castle to catch a train for Pittsburgh where they planned to face the "Marriage Post" stole an auto from Mine No. 5, Mercer county yesterday, abandoned the car at the P. & L. E. station here and after reaching Pittsburgh the youth or man telephoned to police telling why he had stolen the car and where it could be found. Police found the car here. It belongs to W. A. Fultz, of R. D. 5, Mercer.

Apparently the love-sick pair lacked the fare for a taxicab and father's horse was being used to plow so they decided on a bold move—one which only a man madly in love would do—they or "he" (the man is supposed to take the blame) decided to "steal" an automobile.

They took the car of W. A. Fultz.

Later the automobile of Mr. Fultz was reported as stolen, to New Castle police.

Today a telephone call came from Pittsburgh: "Say, Mr. Policeman, I want to tell you something. My girl and I wanted to get married so we stole an auto and left it at the railroad station in New Castle."

Detective Tom Lynch went to the P. & L. E. and found the auto there as reported.

MAN POSING AS MAIL FLYER IS FOUND IMPOSTOR

Police officers picked up a man on the streets last night who was wearing a leather coat and told the officers that he was a mail plane pilot who had been forced to land near here.

He told the police that he had delivered his mail to the postoffice. Officers investigated, found that no mail had been delivered, and the story of the man was scouted. He was held in jail over night and this morning admitted that the story was false.

Opposing counsel will also debate Chaplin's demurrer to the entire complaint.

Do You Know?

Do you know where the public library is?

Robert P. Bliss of the state library at Harrisburg tells a story of visiting a western Pennsylvania library which had recently moved to a new location. On arriving in the town he walked in the direction of the old place and asked the first man he met to direct him to the public library.

"It used to be right here", said the man, "but since it has moved I don't know where it is".

Mr. Bliss walked on for two blocks, asking every other man he met where the library was. No one knew. He came to the postoffice and was about to inquire directions there, but decided to ask of the men he met until he got the information. Just beyond the postoffice he met two young men and once more announced his quest. They pointed out a place just across the square from the point where he had first put his question.

Steal Tires From Auto At Cascade

According to reports today, the tires were removed and stolen from an automobile parked at the parking section in Cascade Park last night.

It is said the machine was "jacked up" and the tires ripped off by persons who evidently knew how to do the business in quick time.

It is believed that persons who operate dances at the park will employ a detective to guard people's cars, although there is no parking charge for automobiles.

Bill Putting Treasurer On Salary Not Passed

Since the adjournment of the recent session of the Pennsylvania General Assembly, the question has been raised as to what was the fate of the several bills introduced designed to reduce the compensation of treasurers in third class cities.

Two bills finally got out onto the floor of the Senate and House, one presented by Senator George T. Weingartner of this county and one by Senator William D. Mansfield of McKeesport, Pa.

The bill of Senator Weingartner provided salary for treasurers the minimum to be not less than $3,000.00 and the maximum not more than $5,000.00.

This bill passed the Senate, and passed two readings of the House. On the third reading the influence of the Tax Collector's lobby was seen, and on motion of Representative John H. Hefferon of Pittsburgh, the bill was recommitted to the committee on Municipal Corporations.

This was done during the closing days of the session when a recommitment meant almost certain death for the bill and it never came out. In explanation of the recommitment, Hefferon, and his colleague, Benjamin Jones were very candid in saying that it meant a drastic cut in the salaries of treasurers. In some districts a treasurer makes as high as $20,000.00 a year, while in some of the township districts the fees will run as high as $35,000.00 a year. Naturally such legislation is met with stern opposition on the part of those who want to continue looting the public treasury.

The bill of Senator Mansfield provides that the minimum fee paid treasurers of the cities of the third class shall not be less than one-fourth of one per cent. At the present time it is one-half of one per cent. The bill makes it optional with the council to set the rate. This bill nearly met the fate of Weingartner's bill but was saved by several representatives from cities of the third class who were making an honest effort to cut expenses. It is now in the hands of the governor for signature.

If signed it will permit councils to reduce the rate paid treasurers and to some extent will have the same effect as the Weingartner bill.

Studebaker Custom Sedan $1335

f. o. b. factory including $100 worth of extra equipment

THIS luxurious Studebaker Custom Sedan gives you more for your money than any other car at anything like its new low price.

A world of power insures thrilling performance

Based on the ratings of the Society of Automotive Engineers, this is the world's most powerful sedan of its size and weight. So expect a new thrill when you drive it.

Enjoy its brilliant performance—see how slowly it will idle in high, how smoothly it accelerates, how flashing fast it is on the pick-up, how easily it darts through traffic openings, skims down the free stretches, climbs the steepest hills.

In addition to supremacy in power, this new Studebaker Custom Sedan gives you a new standard of safety—the safety of a full-vision steel body, fused by electricity into a unit, practically indestructible—positive mechanical 4-wheel brakes, and the finest steering mechanism ever devised.

Matching the custom beauty of its lacquered exterior is the custom luxury of its roomy interior—rich mohair, exquisite broadlace, Butler-finish hardware, silk curtains, iridescent dome light and deep, restful seats.

Save money when you buy —and when you drive

At its new low One-Profit price the Studebaker Custom Sedan saves you money at the start and saves you money all the way, because its lighter steel construction is less wearing on tires and more sparing of gasoline—gives greater economy all 'round. Drive it today—without obligation.

EQUIPMENT—Nickel-plated bumpers, front and rear; no-draft ventilating windshield (exclusive with Studebaker); full-size balloon tires; disc wheels and positive acting four-wheel mechanical brakes; engine thermometer and hydrostatic gasoline gauge on dash; two-beam acorn headlights, controlled from steering wheel; cowl lights and interior dome light; rear traffic signal light; automatic windshield cleaner and rear-vision mirror; oil filter; Alemite chassis lubrication; silken curtains; Butler-finish hardware.

French Doctors Find Tuberculosis Serum

By HARRY R. FLORY,
International News Service Staff Correspondent

PARIS, May 5.—Three famous French scientists claim to have practically solved the problem of finding an anti-tuberculosis serum for the cure of human pulmonary tuberculosis.

Doctor Philippe A. Kfouri, Professor Gabriel Petit of the Academy of Medicine and Professor Panisset of the National Veterinary School at Alfort have worked for years on the problem.

It was a foregone conclusion they declared that the serum would have to be derived from the blood of a person or animal afflicted with pulmonary tuberculosis. For various reasons it was impossible to take the blood of human patients.

The scientists first experimented with dogs, rabbits and other animals, inducing in them pulmonary tuberculosis. The serum derived from their blood, however, was not of sufficient intensity to combat the disease in the human body.

They next experimented, with horses at the National Veterinary School, well known for their resistance to the disease. The problem was especially difficult since it was necessary to induce only pulmonary tuberculosis and not a general tubercular condition. These experiments have now succeeded, they claim.

Bell Telephone Acquires Several Additional Lines

Huntington And Clearfield Telephone Company Sells Holdings

(International News Service)
PHILIPSBURG, Pa., May 5.—Thomas J. Lee, president of the Huntingdon and Clearfield Telephone Co. today confirmed reports of the sale of those companies to the Bell Telephone Company of Pennsylvania.

Lee refused to divulge the amount involved in the transfer of the two properties. The deal must be approved first by the state public service commission before the actual transfer takes place.

If articles now being drawn up meet with the approval of the State Public Service Commission it is probable that the Bell people will take over the two companies by September 1, Lee said.

The Huntingdon and Clearfield company serves Indiana, Cambria, Clearfield and part of Centre county while the Somerville concern serves Dubois, Clearfield, Jefferson, Brookville and other cities.

Radio Stations In Residential Sections Ordered To Cut Power

(International News Service)
WASHINGTON, May 5.—All radio broadcasting stations located within residential sections of cities were ordered today by the federal radio commission to reduce at once their power to 500 watts. About 175 stations will be affected.

(International News Service)
LEOMINSTER, Mass., May 5.—Two and a half miles of electric cars, concentrated at a car barn here, and gathered from various points on the street railway which serves this section of the state where the trolley has been replaced by the bus, tell the mute story of the demise of what was once the chief method of transportation.

"Gone but not forgotten," well might the old adage be used with reference to the collection of street cars. Some are of the earlist vintage and look queer to the youth of today. To those whose memories harken back to many years ago, they awaken long dormant thoughts however.

For several weeks employes of the street railway drove the cars into the concentration point here from outlying sections of the road. The number about 250 and present a unique sight to those who have visited the place.

Youth Wanted On Charges Of Theft Is Suicide Victim

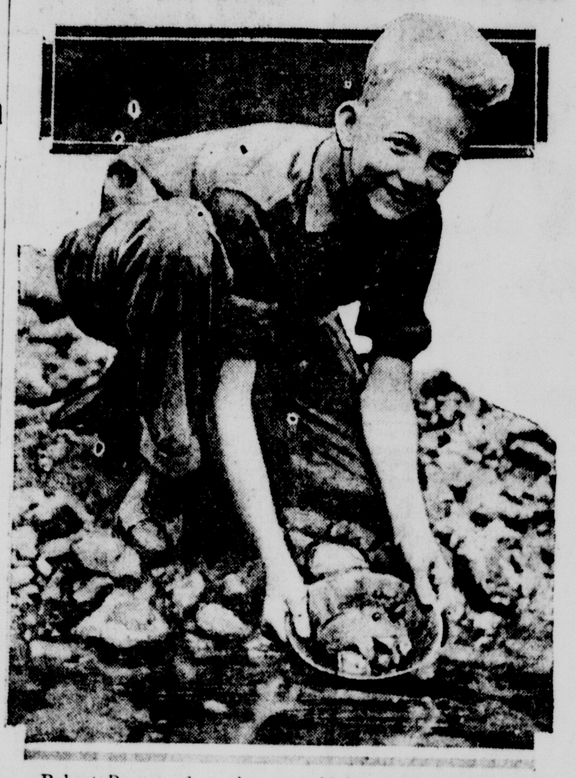

Sashweight Rope Used By Young Man In Killing Self As Officers Hunt Him

(International News Service)
LEBANON, Pa., May 5.—Sought by county authorities and Pennsylvania railroad police on a charge of theft, Harry Iremin, 18 hanged himself early today in the Donaghmore stone quarries near here according to reports.

Following a reprimanding by his grandmother he left his home near the quarries at 2 o'clock this morning, uttering threats of suicide, members of his family said. His body was found sometime later by a brother, James 11, one of a party of searchers.

Young Iremin used a sashweight rope taken from a window in his bedroom with which to hang himself.

Another Youngster, This One Twelve, Makes Gold Strike

Robert Branstead, twelve-year-old boy, is the latest youth to make a gold strike. In Wildcat Canyon, in the Berkeley, Cal., hills, where none suspected the precious metal existed, he's found a vein. A water company owning the property is permitting him to work it on a fifty-fifty basis.

BERKELEY, Cal. (I-I-N Special).—Twelve-year-old Robert Branstead was determined to become an Eagle Scout. Part of the test was to identify certain kinds of rock.

So into the Berkeley foothills he went, gathering specimens and studying them in the light of his meagre knowledge of geology.

"Gee-minity!" he exclaimed as he dislodged a piece of rock in a gully. "That looks like gold, and not fools' gold, either!

"Dad ought to know," he guessed. His father in a San Francisco jeweler.

Dad suspected that it really was gold. And his acids proved it. So just as two youths dicovered the ledge that started the Weepah gold rush, a youth discovered this newest ledge.

However, there'll be no gold rush. The vein is on the property of a water company. And it's very thin.

But the water company decided if Bob wanted to work the vein, he could. So he's out in Wildcat Canyon every Saturday now, panning out precious flakes. He's splitting fifty-fifty with the corporation.

Terminal Coal To Re-Open Mines By Non-Union Method

(International News Service)
PITTSBURGH, May 5.—Each of the mines owned by the Pittsburgh Terminal Coal Corporation will be re-opened soon with non-union labor, Horace F. Baker, president of the firm, said today, in commenting upon the success the company has had in re-opening its first mine, at Coverdale, with non-union miners.

It is unlikely that more mines will resume operations in the next week or so. But arrangements are being made for a resumption of mining at several pits soon after that.

Baker intimated that the Mollenauer mine, No. 4, probably will be the next to resume operations.

Meantime, Sheriff R. H. Braun of Allegheny county, said he had not received the 10 writs of ejection sworn out by the corporation in an effort to evict union miners at its Coverdale mine. As soon as they are turned over to the sheriff, they will be served, he said.

Wealthy Kane Man Fails To Identify Pair Of Bandits

(International News Service)
KANE, Pa., May 5.—Two suspects arrested shortly after William Turby, 55, wealthy Kane resident, was held up and robbed, were released by police today when Turby failed to identify them.

Although Turby was said to be in the habit of carrying large sums of money on his person, the bandits got but $17.50. They accosted him in the residential section here.

When Turby resisted them, the bandits beat him in the face. One bandits leveled a revolver at Turby and threatened his life whtle the other man searched him.

The robbers were unmasked and Turby gave police a good description of them.

Butler Returns To Washington After Tour Of Country

(International News Service)
WASHINGTON, May 5.—Ex-Senator William M. Butler, chairman of the Republican national committee, returned today from a swing around the country in which he sounded out sentiment regarding another term for President Coolidge.

He conferred with Republican leaders from coast to coast.

Butler submitted a report on his observations to President Coolidge at a White House luncheon.

The American worker is fired by a spirit of hope and ambition and a sense of opportunities lying all round him.—Sydney Brooks.

HOME, SWEET HOME.

There was once a certain teacher who believed that a deep and profound reverence for home was a thing that all her pupils should be made to feel.

"Who can give me a definition of home?" she asked the class one day.

There was a distinct silence. It could almost be felt.

"Surely" continued the teacher, "surely some of you must have an idea."

A small boy stood up.

"Home" he announced, "is the building which usually stands in front of the garage."—London Answers.

DO YOU KNOW?

That it has always been a Ford policy to provide transportation at lowest cost; and while desirable features, such as starter and balloon tires, are now standard equipment. Special equipment which is often wanted by some purchasers, but which would have to be paid by all if adopted as standard is not included in Ford prices.

Any of this equipment can, however, be purchased at extremely low cost by the owner who seeks to individualize his car.

Almost Wild With Eczema

Happy To-day

When the dreadful itching of eczema drives you frantic and you are praying for relief you need Peterson's Ointment.

Make no mistake—many thousands who have turned to this tried and true ointment as a last resort have ended all the terrible misery so quickly that they blessed the day they bought the first box.

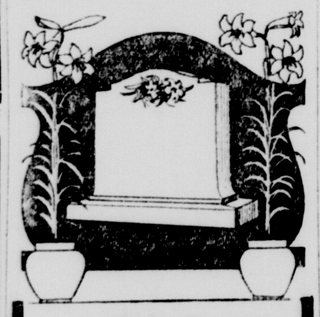

Because it acts so quickly millions of homes consider Peterson's Ointment a necessity.

It's so wonderful for skin eruptions, pimples, acne and salt rheum, for instance, that many times only two or three applications are needed to make the skin clear and healthy.

Its mighty healing power is clearly shown when used for ulcers, piles and rashes, while as a household remedy for burns, scalds, abrasions, bruises, insect bites, windburn and chafing, druggists will tell you it is unsurpassed. Big box 35 cents.

COLLEGE SENIORS NAMED TEACHERS

Westminster College Boys To Be High School Instructors; Other News

(Special To The News)

NEW WILMINGTON, Pa., May 5.—Harry Newell of Sharon, a member of the Senior class at Westminster College, has received a contract from the Parnassus high school authorities to teach science. It is very probable he will accept.

William Wilt of Ligonier, has signed to teach and coach at his home town high school. He will assist in coaching the grid team and will have complete charge of track. Wilt is captain of this year's track team.

MAXWELL SPEAKS

George Maxwell of New Wilmington, who has completed his first year at the Pittsburgh Theological Seminary, addressed the Westminster Y. M. C. A. Wednesday evening on the subject, "The Value Of Clean Living." Wesley Rose of New Castle, was student leader.

Maxwell will be remembered as a graduate of Westminster with the class of 1926. While in college, he was an outstanding distance runner.

TO PRESENT PLAY

"The Arrival of Kitty," a farce in three acts, will be presented by the Junior class of New Wilmington high school, Friday evening, in the Community auditorium. The play is full of snap and humor and those who attend are assured of a pleasant evening.

The students who will have parts are: Marian Ferver, Sherman Stevens, Dorothy Kuhn, Burnside Graham, Don Davis, Frances Hartwell, Andrew McDonald, Robert Herriott and William James.

Nothing is Just as Good as the "Red Star"

Many competitive salesmen pay us compliments when they say that their Oil Stove is as good as the "Red Star." They recognize the leadership of the "Red Star" and can only hope that their's is "nearly as good." Remember the "Red Star" gives you the best results known to oil stoves—it has no wicks, no rings, no odor, no fumes and as the oil is NOT UNDER PRESSURE there is no danger.

Plaingrove School Activities

(Special To The News)

PLAINGROVE, May 5.—The eighth grade examination will be given in the Plaingrove School, Saturday, May 7. The examination will be under the direction of Miss Barnes and Mr. Walter, and will start promptly at eight o'clock in the morning.

"Backbone," a comedy-drama, has been selected as the senior play. A royalty production, it promises to cap the climax of a "dramatic" year. The cast has pounced upon it with a will, and judging from the laughs they get therefrom, their audience are sincerely advised to reinforce their sides against excessive vociferation. After much juggling of dates, it has been decided to present the play on the two evenings of May 18 and 19. Following is the cast:

Mr. Henry Easton—Whose principal accomplishment is the making of money—Kenneth McCommon.

Mrs. Lucile Easton—An adept in disbursing the fruits of Henry's commercial sagacity — Margaret Montgomery.

Elizabeth Easton—The attractive daughter—Agnes Brenneman.

Mr. Barton—Owner of the department store—Louis Guaneri.

Fred Barton—Son of his indulgent father—Harry Sankey.

Willie Scott—Who lets well enough alone, and plods along in the belief that he amounts to nothing—Until—Raymond Eppinger.

Kate—Maid at the Easton home—Edna Sankey.

Miss Woodward—Who believes in the message of the stars—Helen Patterson.

Dorothy—A friend of the Easton's—Gladys Wynder.

Marion, Elizabeth's chum—Joyce Moors.

Wilbur—Office boy at the store—Herman Donley.

Jack, Tom and Bob—Elizabeth's friends—Taken by Albert Foster, Gaylord Shaw and Merle Stone respectively.

Collector for Installment House—Raymond Walter.

Prof. Frank Moore, in a recent visit to the school, gave the students a very inspiring address. As principal of the Brookline and West Liberty Schools of Pittsburgh and with teaching experience dating from 1893, Mr. Moore is well grounded in the facts from the point of view both of the pupil and teacher. He poinis out that a raise does not come with the idea that one will earn it: one must earn it first. He next stressed honesty as a prime factor in the happy life. Many of his illustrations were aptly drawn from history and all were strikingly presented to the imagination. He cited the instance where a certain tribe penetrated as far West as Gibralter and, convinced that they had reached the limit, carved there high up on the rock this inscription: Ne Plus Ultra (No more beyond). Later the bold Phoenician sailors scaled those heights and chiseled out the word Ne, making the inscription read "More Beyond." It was Professor Moore's admonition that boys and girls should chisel the Ne out of their lives, for only then can they attain the highest goal. He proceeded further, though, and in the following quotation gave a national warning which deserves the attention of every American citizen:

"The Phoenicians confined themselves to commerce. The Phoenicians prospered. Prosperity created desire for luxury, which created a desire for idleness.—And the power of Phoenicia waned."

MIGHT LOSE HIS HEAD.

Women Need a Mild Laxative —Not a "Physic"

Countless girls and women now know how foolish and needless it is to "purge" and "physic" themselves to avoid sick headache, dizziness, biliousness, sallow skin, colds, or sour, gassy stomach.

They have found that Dr. Caldwell's Syrup Pepsin helps to establish natural bowel "regularity" even for those heretofore chronically constipated. Dr. Caldwell's Syrup Pepsin not only causes a gentle, easy bowel movement but, best of all, it never gripes, sickens or upsets the most delicate girl or woman. Besides, it is absolutely harmless and so pleasant that even a cross, feverish, bilious, sick child gladly takes it.

Buy a large 60-cent bottle at any store that sells medicine or write "Syrup Pepsin", Monticello, Illinois, for a FREE SAMPLE BOTTLE and just see for yourself.

Bessemer Plant Enters Contest

No-Accident Drive To Be Started At Plant On June 1

SAFETY COMMITTEE NAMED FOR EVENT

(Special To The News)

BESSEMER, May. 5.—A vigorous no-accident drive is scheduled to start June 1 in the Bessemer plant of the Bessemer Limestone and Cement company here as part of a great nation-wide safety campaign among cement plants of America it was announced today by Mr. Wasson, superintendent.

The Bessemer plant will cooperate with 150 other cement mills in the United States, Canada and Cuba to put across one of the most concerted safety drives ever inaugurated by an entire industry. It is known as the June No-Accident Campaign.

Enrollment papers were signed yesterday in which the plant pledges its support in the national campaign. Mr. Wasson explained. Although the local company has been quite active in movements to protect its workmen, plans are now being made for a local campaign which will dwarf past efforts and put the Bessemer plant in the front rank so far as industrial safety is concerned.

A safety committee under the leadership of A. J. Eales safety director, and composed of Messrs. Duvall, McElvenny, Weaver, Hovis, Bradley, McKee, Vlah, Dunn and Bair for the cement mill and Messrs. Seltzer, Montgomery, Winland, Booksing, Anderson and Nordor the quarries has been appointed to carry the drive to every department and every individual worker in the cement mill and quarry.

"This campaign offers a splendid opportunity for us to show what we can do in safety work" Mr. Wasson declared. "Cement plants from every part of the country are cooperating in this campaign and national recognition will be given those who make a good showing. We are anxious to have our employes work safety.

The cement mill has so far gone through the year without an accident and there is every reason to believe that we can operate during June and many months thereafter without accidents and possibly establish a new record.

Starting June first a green and white safety banner presented by the Portland Cement association will fly from the flag staff at the cement mill and it will stay up just as long as the mill continues to operate without a time-lost accident.

Father Of Six Runs Vain Race With Train

CHESTER, Pa., May 5.—A father of six children trapped on a Pennsylvania railroad bridge here between a passenger train and the bridge's high guard railing, ran a vain race with death yesterday and was killed by a freight. The victim was Lorenzo de Sipio, 40, employed by contractors engaged in electrifying the line.

Plans For Legion's Paris Convention Are Well Advanced

(International News Service)

INDIANAPOLIS, Ind., May 5.—Arrangements for the France convention of the American Legion to be held in Paris September 19 to 23 are far advanced on both sides of the ocean, Howard P. Savage, National Commander of tne Legion, has announced.

The National Headquarters of the Legion will be maintained in the Hotel Crillon while the veterans are abroad. The business sessions of the convention will be held in the Palace Trocadero. This famous government exhibition building, now housing a museum, is just across the Seine River from the Eiffel tower. The Legion Auxiliary will have headquarters in the Hotel Continental. The ballroom in this hotel will be the largest that the Auxiliary has had at any national convention. The "40 and 8" play and honor organization will meet in the Palais d'Orsay.

A five mile line of parade through the heart of Paris has been arranged for the opening day, September 19. The city will observe a holiday and most of its population will line the avenues as the Legionaires march. Ferdinand Foch, Marshal of France and wartime commander of the Allied Armies, John J. Pershing, commander of the A. E. F., and Howard P. Savage, National Commander of the Legion will be in the reviewing stand. The host of Legionaires will gather for the parade in the Place des Invalides. After crossing the bridge Alexander III the veteran hosts will pass along the principal avenues of the French capital, and finally disband in the famous Jardin des'Tuleries.

Urge Convention For Making Plan To Save Whales

(International News Service)

AUKLAND, New Zealand, May 5.—Scientists are becoming alarmed at the wholesale slaughter of whales in the Ross Sea, where it is feared that unless some measure of restriction is introduced the species will be wiped out.

It is claimed that the widespread use of motor vessels and modern appliances gives the whales no chance.

During the present whaling season Norwegian fishermen alone have accounted for seven hundred fish. The total catch for the season is estimated at 1500, with a total oil yield of about two and a half milion dollars.

A new international convention is suggested for the control of whaling in New Zealand waters.

Russian Marriages Void In Hungarian Court, Latest Ruling

(International News Service)

BUDAPEST, May 5.—The High Court of Justice has decided that marriages contracted in Russia under Soviet laws are not valid in Hungary.

The question of the validity of Soviet marriages arose through the case of an Hungarian named Lenkey, who while a prisoner in Siberia, married a Russian woman, whom he brought to Hungary on his repatriation. Some time after the couple arrived in Budapest a child was born and shortly after Lenkey deserted his wife.

Mrs. Lenkey put in a claim for maintenance on which the question of the legality of the marriage was considered. It was decided as Soviet marriages can be dissolved at the wish of either party without serious cause, they are contrary to the moral character of marriage and therefore illegal in Hungary.

No scrubbing—yet clothes get whiter than ever

MILLIONS of women know that it's not "too good to be true!" Rinso has proved to them that it gets clothes whiter. *Safely!*

Nothing can *compare* with this amazing granulated soap. It gives thick, soapy suds even in hard water. These suds loosen dirt and stains so they float off without a bit of hard rubbing!

No wonder clothes last longer this way. They aren't rubbed thin against a metal board.

Try Rinso next washday. Whether you boil or not, you'll get the whitest, brightest wash you ever saw!

And it's just *wonderful* in washing machines! 30 makers endorse it.

Over 10,000 Children Immunized In County

MERCER, Pa., May 5.—Children of the first three grades of the public schools of Greenville were given an immunization test for diphtheria today by Dr. S. J. Dickey, county medical director, assisted by the doctors and nurses of that city. With the work started in Greenville almost every town in Mercer county has started this test in its schools. Many of the townships have also had the pupils in their schools immunized.

For two school terms now Dr. Dickey, with county doctors, has been at work in the county schools, with the result that there are as many immunized school children in the county for its size as any in the state.

The number now totals over 10,000.

The children of the Leesburg schools, numbering 75, were immunized Monday. There are three treatments of serum given, one week apart, to children whose parents allow the treatment given.

UNABLE TO ARREST WOMAN VICTIM YET IN DARBY 'TAX WAR'

DARBY, Pa., May 5.—Harry W. Shein, deputy tax collector, and Sharon Hill, police chief, tried their futile best today to arrest a woman and so get a test case in this borough's tax war.

Shein, obeying the behest of Albert S. Shaw, tax collector, failed when his intended victim refused to submit herself and paid $2 as an installment on her tax of $4.05.

Women here have declared war on the personal tax, but have adopted a policy of passive resistance or partial yielding when, for two days, Shein has tried in vain to find some one to arrest.

Many a wife does not believe half her husband tells her, and he does not tell her half of what she suspects.

WASHINGTON, Pa., May 5.—Trial of Justice of the Peace Albert Erdelyi of Donora, on charges of extortion, was postponed today until Tuesday of next week. The case had been set for trial here today.

FEUDISTS' CRIME TALE TOLD

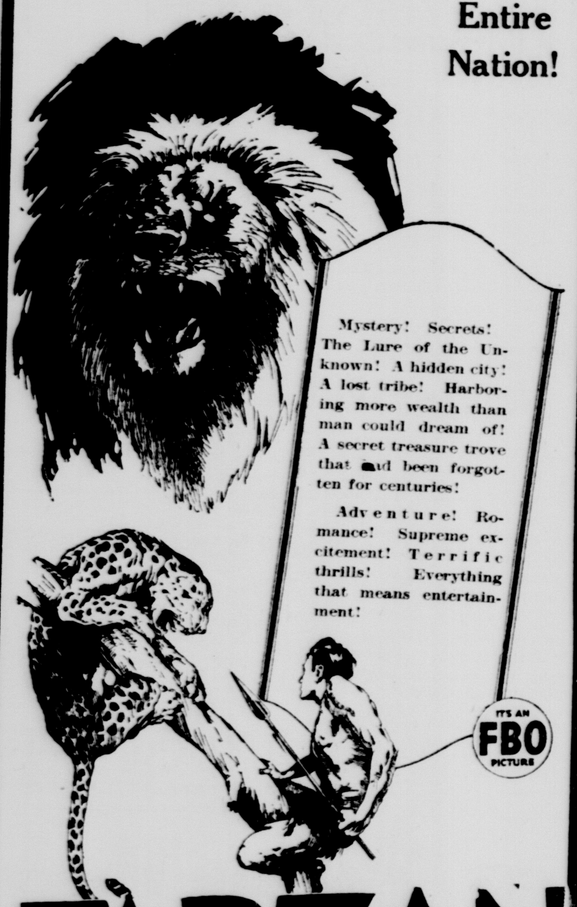

Fear of "gang vengeance" and a desire for revenge, are believed to be the motives which led Harry Thomason, 19, serving a sentence of from 10 years to life imprisonment for robbery, to confess to the murder last Dec. 12, of Mayor Joe Adams, of West City, Ill. In his confession Thomason says he and his brother Elmo, 17, now dead, received from Charlie Birger, feud leader, $50 each for the three shots fired at Adams. Thomason further confessed that the murder was planned at Birger's cabin, where Birger's lieutenants, Art Newman, Connie Ritter and Harvey Dungy, also, were present. He named Ray Hyland as the driver of the death car. These four men, along with Birger, have been indicted for murder. Elmo Thomason was killed when Birger's cabin was dynamited and officials believe Lory Price, state highway patrolman, was abducted and later killed because he would have connected Birger with the crime. The two girls, above, Jackie Williams and Pearl Phelps, testified against Thomason when he was on trial. After his confession, Thomason was sentenced to life imprisonment.

Japanese Premier Says Time Not Ripe For Policy Change

Japan Will Stick To Present Policy In Regard To China

(International News Service)

TOKYO, May 5.—Addressing the Japanese Diet today, Premier Giichi Tanaka declared that there is no reason apparent at this time for Japan changing her attitude toward China or modifying her policy of co-operation with the powers.

"Reports of outrages in China are exaggerated", the premier told members of the Diet. "Japanese women have not been insulted in China".

Financial relief measures, for the voting of which the present financial session of the Diet was called, were referred to committee today. Threatened opposition to the financial bills will not be serious, government leaders believe.

Fisher Approves Borough Codifying Revision Measure

(International News Service)

HARRISBURG, Pa., May 5.—The new borough code revising and codifying all laws for the government of the borough of the state today was approved by Governor John S. Fisher. The code is a volume of 293 pages the longest act passed by the recent session.

The act caused considerable dissension in both houses because of minor amendments and went to a conference committee for the ironing out of differences. It was sponsored by Rep. James H. McClure, Allegheny.

Fisher Approves Forty-Eight Bills

Mansfield Measure Reducing Fee For Collection Of Taxes Signed

(International News Service)

HARRISBURG, Pa., May 5.—Gov. John S. Fisher today signed the bill of Senator Mansfield, Allegheny, reducing from one half to one fourth per cent for the collection of city and poor taxes in third class cities. The rate is on taxes before penalties have been incurred. Five per cent remains as the rate for the collection after the end of the non-penalty period.

The governor at the same time announced the approval of forty-seven other bills. Four of them were repealers. Those signed included:

Senator Harris, Allegheny, requiring counties, cities, boroughs, school and poor districts to fix the rate of taxation in dollars and cents as well as mills.

Representative Mumford, Warren, directing county commissioners in seventh class counties to fix compensation of collectors of county taxes.

Representative Bush, Fayette, authorizing boroughs to appropriate money or levy and collect with the consent of the electors a special tax for building fire houses, lock-up and municipal building.

Representative Pitts, Philadelphia, permitting pupils living in a district without a high school to attend the most conveniently located high school.

Democrat May Get Farm Bureau Post By Appointment

Coolidge Said To Favor Eugene Meyer As Head Of Farm Loan Bureau

(International News Service)

WASHINGTON, May 5.—President Coolidge has decided to name Eugene Meyer, Jr., a Democrat, as executive head of the reorganized Fedarel Farm Loan Bureau, it was learned today.

The appointment will be announced at the White House within a few days. Meyer was endorsed for the post by Secretary of the Treasury Mellon.

Meyer, who served a decade as managing director of the War Finance Corporation will succeed Robert A. Cooper as executive commissioner of the Farm Loan Bureau. The resignation of Cooper was reported to have been accepted by Mr. Coolidge, along with that of Commissioner Edward E. Jones. The resignations were requested by the President in his reorganization of the bureau.

FIVE ACCIDENTS; NO ONE INJURED

Minor Automobile Accidents Are Reported To City Police

Five automobile accidents occurred in New Castle streets yesterday and last night but fortunately no persons were injured though several cars were damaged.

The police accident reports shows the following car operators as having been connected with the accidents:

Harry Arost, 919 Moravia street and J. D. Miller, Mahoning R. D. 8. Their cars crashed at East Washington and Chestnut streets. Arost claims the Miller car pulled out from the curb while Miller claims the Arost car was going at a fast pace.

E. J. Crammer, 112 North Vine street and George Anthony had a collision near Huey street. Crammer claims he thought Anthony would drive into Huey street and he stopped. Instead the Crammer auto struck the Anthony car.

Bert Sisley, Hoyt apartment, intended to drive into Terrace avenue and Joe Laskey's car was parked on Moravia street. Sisley tried to go around it and struck the car of John Demos, Akron, O.

Herbert Cunningham, 703 Etna street claims his car was struck by an auto, license R53-823, in Adams street.

Harry Schlosburg, 715 Lathrop street, says in his report he thought auto, license number 368-205 would turn into Cunningham, but that no signal was given and their cars crashed.

Legion To Meet On Friday Night

With a loud squeaking of hastily applied brakes the taxi pulled into the curb and its occupant clambered gingerly out.

He glanced at the taximeter and profered the exact fare to the driver a miserable-looking kind of a fellow.

"'Ere," said the latter darkly, "what's this 'ere?"

The fare looked at him for a moment.

HARK TO THE CLARION CALL

This is the supreme effort. The final spurt in the thrilling merchandising Carnival Chuck full of bargains. What we did the first Week will not hold a candle to what we will do the next remaining days. This great sale goes on—we find greater enthusiasm over the values through out the store. Customers are coming back to buy more. They are telling their friends and as the story spreads, we see eager new faces. Just a few days and this brilliant event will be no more. You must see the merchandise, feel it and then look at the price tickets. No matter how convincing we wrote we could not do justice to the values! We have never exaggerated and we have never disappointed. You will see a bargain carnival for the next few days that will put everything else in the shade. No matter where you live, your home may be a mansion or a cottage, these bargains should delight you. Free prizes given away Saturday night ask for cash receipts.

VICKSBURG BECOMES HAVEN OF THOUSANDS

Thousands of flood refugees have been brought to Vicksburg, Miss., which, because it lies far above the normal stage of the Mississippi and also because it has a stout sea wall, has proved to be an excellent concentration center for Red Cross activities. Here are some exclusive photos of Vicksburg scenes: (1) Towboat "Sprague," reputed to be the most powerful towboat in the world and which has handled nearly seventy river barges in one tow, is shown here with oil tank barges, which were pressed into service to carry thousands of persons to safety. The "Sprague" made her record towing coal barges from the Ohio river, but—and this is an interesting sidelight of the change in river traffic—she now handles oil from out of southern fields. Photo No. 2 shows an old woman being helped down a gangplank; (3) Red Cross workers registering refugees on the waterfront at a railway station; note the ambulances.

Indiana To Try New Tax Scheme In Real Estate

Downward Revision For Land Values New Order By State Board

Law Passed To Relieve Farms Now Assessed At More Than Cash Value

By ROBERT W. GINSBERG
International News Service Staff Correspondent

INDIANAPOLIS, May 5. — Indiana will try a new scheme in tax methods this year. All equalization orders from the state tax board will call for a downward revision of real estate.

The new method is the result of a law passed by the last session of the legislature providing for a downward revision of real estate this year.

The law was passed to relieve farmers throughout the state of excessive tax burdens as the result of decreased values in farm property. The complaint was made that many farmers were being taxed on farm lands assessed higher than the actual cash value.

Passage of the law created consternation among the members of the tax board. They charged it violated every principal of equity, but were relieved to learn its provisions were effective for one year only.

Reducing Valuations

Under the provisions of the new law, the tax board was expressly forbidden to increase the assessed valuation of any taxing unit to equalize it with the valuations of surrounding units. It declared the board would have to reduce the valuation of the surrounding units to the level of the first.

Although they declare the provisions of the law absurd, and state frankly the bill never should have been passed, the board, nevertheless, is going to follow the edict, John J. Brown, chairman, asserted.

Brown refused to conjecture on the probable result.

Last year, the state had an assessed valuation of $5,300,000,000. All debts had been wiped out. The state tax rate was reduced from 28 cents on the $100 valuation to 23 cents. The State of Indiana was declared to be on the road to prosperity.

Then came the legislature. Huge appropriation bills were passed.

Farm Bloc Panicky

The farm bloc became panicky. An increase in the state tax was inevitable, and they passed the new tax law.

Friends of the bill said it would hurt no one, but help the farmers who were staggering under a top heavy tax burden. Opponents announced it would ruin the state financially. But the measure was passed and the governor signed it.

Enemies of the bill still predict all sorts of dire results.

They charge the total assessed valuation of the state will be reduced materially. This will mean an increased tax rate to cover the shortage, it is pointed out, and the farmer will be where he was in the beginning.

The increased tax rate, it is said, will drive business out of the state. Some express grave fear over this consequence.

None of the charges or counter charges worry the farmers, however. They are satisfied. A downward revision or real estate valuations, they say, will bring their lands at least within the present market prices. That is all they want, they say.

BOBBING PRICE CUT

Gray Unfolds Murder Story

Testifies As To Crime In Snyder Home; Accuses Mrs. Snyder

BLOOD-CURDLING TALE TOLD JURORS

BY JAMES L. KILGALLEN
International News Service Staff Correspondent

COURTHOUSE, LONG ISLAND CITY, N. Y., May 5.—No one today questions the truth of Henry Judd Gray's crimson story as told by him from the witness stand late yesterday.

It rang true, every word of it. You might have doubted some of Mrs. Ruth Brown Snyder's testimony but Judd Gray's story was unquestionably the outpouring of a tortured soul.

It was as dramatic a recital as was ever heard in a courtroom. It almost petrified the spectators.

"I struck him (Albert Snyder) with the sashweight on the head, as nearly as I could see, one blow. I think I hit him another blow. He was full of fight and raised up from the bed and started to holler. He grabbed me by the necktie—I yelled 'Mommie, Mommie, for God's sake help me.'

"She (Mrs. Snyder) picked up the weight and hit him and then threw the other things—the chloroform, handkerchief and the picture wire—on the pillow. Somehow, I got him between my knees. Then I saw he was tied with a towel—

"We went into the bathroom and I washed the blood from my hands—there was blood all over the front of her nightgown."

All this, and more. And all of it happening in poor Albert Snyder's own home.

It was no wonder, as this blood-curdling tale came grating through the radio amplifiers, that Warren Snyder, the slain man's brother, fainted; that four of his sisters had to be assisted from the room; that Gray's mother wept; that Mrs. Snyder's mother wept and that even the "bloody blonde" herself broke down and wept. Even the most hardened reporters felt a shiver shoot up their spines as Gray's voice attained the proportions of a screech as he described the climax of the terrible tragedy.

The gibbering little corset salesman resumes the stand today but anything further he will say will be an anti-climax for those who heard that story yesterday.

London Signs Up More Officers To Fight Crime

(International News Service)

LONDON, May 5.—Two hundred more police are to be enrolled for service in the London Metropolitan Police Force in an attempt to combat the increasing crime-list in suburban areas.

Districts which a few years ago were merely urban villages are now small towns, but the police force of a sergeant and a few men has remained the same, and this fact has been taken advantage of by London crooks.

SIDESWIPE KILLS BRAKEMAN

JOHNSTOWN, Pa., May 5.—Thrown from a railroad car when his train sideswiped a car on a siding, John E. Birkhimer, 25, a brakeman on the Conemaugh & Black Lick railroad, was killed at the Rosedale Coke plant here last night.

E. R. BALL, COMPOSER OF 'MOTHER MACHREE', DEAD IN CALIFORNIA

SANTA ANA, Cal., May 5.—Ernest R. Ball, composer of "Mother Machree" and many other popular songs, died here late last night from a heart attack as he was preparing to leave a theater where he had finished an engagement. He was in his dressing room when stricken.

Ball, who formerly lived in Cleveland, recently moved to Los Angeles.

Passports To Solve Nuisance

(International News Service)

PARIS, May 5.—European passports to solve the visa nuisance have been proposed by the Paris newspaper, "L'Ere Nouvelle."

According to the suggestion, European countries would sign an agreement setting up an inter-European passport committee in every European capital. Passports issued by the committees would be valid for all countries having adhered to the agreement. Special visas would be required for all other countries.

The newspaper considers the suggestion just as feasible as the International Postal Convention.

If you knew the fact you could convict almost anyone of being crazy.

Doomed Slayer's Mental Condition Causes Concern

Believe Nicola Sacco Has Almost Lost Mind Through Incarceration

APPEAL TO GOVERNOR FOR INVESTIGATION

(International News Service)

BOSTON, May 5.—The mental condition of Nicola Sacco was causing his friends and supporters much concern today.

"I would not say that Sacco was on the border line of insanity, but his mind has lost the flexibility which enables a man to adjust normally to situations", said Abraham Myerson, alienist, who examined Sacco in his cell in Dedham jail.

The mental state of Sacco was suspected when he refused to sign with Bartolomeo Vanzetti a petition asking Govenor Alvan T. Fuller to set the two men free from the death sentence imposed as the result of their conviction of the robbery and murder of a South Braintree paymaster and his guard.

"There is no question the seven years of his incarceration, mainly without employment and entirely preoccupied by his situation, have helped bring about an abnormal state in which his fanaticism has been intensified to an obsession", said the alienist.

Sacco agreed with every statement in the petition to the governor—the petition being written by Vanzetti—but held that as it was not addressed to "the people" (the working class) and that therefore it would not be consistent with his views if he signed it. Both Sacco and Vanzetti declare that they are innocent of the crime of murder. The petition asks for justice, not mercy, and for an investigation.

With the petition, Governor Fuller had on his desk today six affidavits stating that Judge Webster Thayer of superior court, who presided at the Sacco-Vanzetti trial, expressed feelings against the two defendants because they were radicals.

Indict Ambridge Man For Bribery

(International News Service)

PITTSBURGH, Pa., May 5.—Emil Bruno, of Ambridge, today stood charged by federal indictment of attempting to bribe a general prohibition agent.

Bruno, according to the indictment, offered William F. Geis, the federal agent, $100 as "hush" money when he sought to arrest Bruno. The attempted bribe was offered on March 8 last, according to the charge.

Records of the clerk's office in federal court here showed a complaint has been filed against Bruno on a liquor charge.

More Are Joining 308th Organization

Ammunition Train Veterans Have Meeting At Headquarters Wednesday

At the meeting of the 308th Ammunition Train held last night in the Veterans of Foreign Wars Home on Neshannock avenue it was decided to call the permanent organization of the 308th by the name "New Castle Branch of the 308th Ammunition Train Association."

The membership committee of the newly organized association report 20 new members and stated that the prospects are that every former member of the 308th Ammunition Train will join up before the next regular meeting which is to be held on May 18 at the Veterans of Foreign Wars Home on Neshannock avenue. All former members of the train who have not yet joined with the association are urged to get in touch with Ivor V. Davis who can be reached by telephone at 537. Mr. Davis says that he will be glad to furnish any information desired about the new organization.

A resolution was passed at the meeting last night to have the new organization attend the annual reunion of the 308th Ammunition Train Association to be held in Pittsburgh on November 11.

The meeting was called to order last evening by Clarence A. Leslie, commander of the new organization. Mr. Leslie made a brief talk concerning the train and the new organization. C. Hoover, a former member of Company G also made a short address.

Nearly 7000 Tags For Lawrence County

(From News Bureau (State Capital))

HARRISBURG, May 5.—Preparations are being made by the state for another big hunting season in Pennsylvania during 1927. The bureau of publications today announced it had ordered 533,000 licenses for this year and the figure is the same as in 1926.

The number of tags printed in 1924 was 503,850 and in 1925, 507,500.

Out of the total number of tags ordered the state is having 6,800 printed for Lawrence county. The number being printed for the neighboring counties to Lawrence are: Beaver, 6,500; Butler, 8,100; Venango, 7,500, and Crawford, 6,800.

Cooks Are Awarded Damages In Action Against Penna-Ohio

Verdict For $2700 For Clare Cook And $2800 For Pearl Cook, His Wife

Verdicts in favor of Clare A. Cook for $2700 and for his wife, Pearl M. Cook, for $2800, were returned this morning in their case against the Penn-Ohio electric company. This was the case in which suit was brought to recover for injuries sustained by Mrs. Cook when she was hurt on a street car which started up suddenly and threw her against a seat while entering the car.

The case went to the jury about 11 o'clock Wednesday forenoon. The jury deliberated until 10 o'clock last night when an agreement was reached. The verdict was sealed and delivered to Judge Hildebrand at the opening of court this morning. The defense made a motion for judgment notwithstanding the verdict. It was marked filed and arguments on the motion will be heard later.

War Veterans To Honor Mothers

Annual Mother's Day Banquet To Be Event Of Tuesday Night

When Tuesday, May 10, is face up on the calendar 6:30 p. m., Daylight Savings time, will see the boys from "Over There" holding their annual Mother's Day banquet in the First U. P. church.

Mother's Day has become an established observance day for all Americans, but it's significance is probably most vivid to those boys who, whether it was mud and barbed wire, cold or cooties, shivering fog or stifling stokehole, gay boulevards and glittering cafes, or hospital cot, always carried about with them a knitted garment, a tasty tid-bit, a loving missive, a picture, or perhaps only too often a saddened, cherished memory of a boy's dearest friend, his mother.

Chairman Stoner, with his committee, has spared no effort to arrange this affair in such manner that those attending will not only enjoy the ultimate joy always coming from an affair of this nature, but that for days to come it will be preserved as one of their happiest moments.

No local veteran of Foreign Wars of the United States can afford to miss this event.

Male guests are requested to bring as many sisters, wives, sweethearts, and above all the loved honor guest, mother, as can be prevailed upon to come.

Show by your presence that you are proud to wave the banner and proclaim to the world how dearly you appreciate your mother.

French Aviator Postpones Flight

(International News Service)

PARIS, May 5.—Captain Nungesser does not expect to start his attempted trans-Atlantic flight this week-end, he told the International News Service today.

"It will be impossible for me to leave on Saturday, as meteorological conditions are bad," said Captain Nungesser. "I see no chance of starting before Monday. At any time thereafter until May 15, when the moon is full, a start may be possible."

TROOP 7.

The regular weekly meeting of troop 7 was held Wednesday evening with a fine attendance. Following the opening exercises a test was given and won by R. Walker of the Raven patrol. A memory test was given, this being a lot of fun for the scouts. Rev. Scripture the Scoutmaster gave a short speech on the importance of activities in good ways, and the importance of obedience to the laws of our country. He also asked for the co-operation of each scout in all work.

TROOP 15.

First Christian Church scouts, troop 15, will meet this evening at 7:30 p. m. with Scoutmaster Sidney Smith in charge. John H. Meyer of the Bell Telephone company will be the speaker of the evening. Every scout is to be present.

NEW TROOP

Another scout troop has been added to the Lawrence County Council at Enon Valley. Dr. Otto Kesel of Enon Valley will take the position of Scoutmaster with Rev. Harrison Davidson as Assistant Scoutmaster. Fourteen boys have already registered, and from all indications this troop will soon be among the best in the Council.

J. A. Speebas, C. P. Rader, Harrison Davidson, and Carl Zeb have been chosen to act as members of the troop committee. The troop will be sponsored by the Enon Presbyterian church.

Prof. Bresslar To Address Grangers

To Speak At Meetings In Granges Of District During Next Week

Prof. R. G. Bresslar, Deputy Secretary of Agriculture will be the principal speaker at a series of open meetings to be held in neighboring Grange halls on Monday, Tuesday and Wednesday of next week.

On Monday evening, May 9, the meeting will be at the East New Castle Grange Hall, on Tuesday evening, May 10, at the Mahoning Valley Grange Hall and on Wednesday evening, May 11, at the Plainsgrove Grange Hall. These meetings will all be open to all residents of the various communities who may wish to attend.

A literary program will be given at each meeting but the main feature of each meeting will be the address of Prof Bresslar. Prof. Bressler was the vice dean of the School of Agriculture prior to his appointment as deputy by Dr. Jordan. He is a man well versed on other subjects than agriculture and has the reputation of a very good speaker and entertainer.

New help *from a new kind of* IRON

HERE'S an iron that says, "I'll watch my own temperature. All you have to do is watch the ironing".

Just connect the cord of the Automatic and it heats up quickly. As soon as it reaches the highest good ironing temperature, the million dollar thermostat turns off the current. When it cools to the lowest good ironing temperature, it turns on again.

Even when you're called away from the ironing board, you don't have to stop and detach the cord. Merely turn the iron up on the heel rest. It will stay within the right temperature range indefinitely.

Price $7.75

Because hundreds of thousands of women are using this New Automatic today, it can be sold for only $7.75—not much more than the cost of an ordinary good iron.

The nearest Westinghouse Dealer will be happy to show you this iron.

Prison Rules To Be Enforced In "Kangaroo" Court

"Judge" Jack Miller To Preside At Trials Held In County Jail

Prisoners inthe county jail adopted a series of rules and regulations by which they hope to make a model prison according to Sheriff H. M. Reynolds. Those who break the rules are to be tried in a "Kangaroo" court, and if convicted, must suffer the penalties prescribed by the rules. Jack Miller has been elected "judge," and will preside at the trials.

"Judge" Miller is the author of the rules which have been adopted and written out for the information of prisoners. They are as follows:

First: It shall be unlawful for any prisoner, whether convicted or otherwise detained as a prisoner in the jail, to treat with reproach, or with disrespect, any sheriff, deputy sheriff, or other officer or custodian of the prisoners. And upon conviction, each offending person shall be held in contempt of said "jail court" sentenced to pay a fine not to exceed $5, and serve one day at house-cleaning, or other work around the jail for the first offense, and shall upon conviction of a second offense, be locked in the padded cell for five days.

Second: It shall be unlawful for any prisoner to misconduct himself in the presence of visitors, who may visit the jail, or to be noisy or impolite during religious services. Upon conviction he shall be fined 25 cents and do one day at hard work, or be confined in the padded cell five days.

Third: It shall be unlawful to spit on the floors or walls of the jail, or to write upon walls, fixtures or other parts of the jail property. Each person convicted of such charges, shall be fined 10 cents to $1, and one day at work or three days in the padded cell.

Fourth: It shall be unlawful for any prisoner to use loud or profane language in the jail. Each offender, upon conviction, shall be held in contempt of the jail court, and pay a fine of 25 cents, and from one to three days in cleaning.

Fifth: It shall be unlawful for any prisoner to make unnecessary noise or wilfully annoy the inmates of the jail after the lights are out for the night, and upon conviction, shall be punished as described in section number four.

Sixth: Each prisoner must obey each rule posted by the county sheriff. Any prisoner failing to do so shall be punished as provided in article one.

Voted upon and passed this third day of May, 1927.

Sheriff Reynolds is of opinion that if the rules as laid down by the prisoners are enforced it will result in a model jail.

Dairy Train To Make Visit To Western Penna

A special dairy exhibit and demonstration train has been arranged by the State Department of Agriculture with the New York Central Lines to visit certain cities in north western Pennsylvania during the next two weeks.

Although this train is not scheduled to make a stop at New Castle several all day stops will be made in neighboring towns so that farmers in this community will be able to see the exhibit.

The train The Pennsylvania Department of Agriculture is cooperating with the New York Central Lines and the State Chamber of Commerce in arranging the exhibits for this train. The Department's exhibit will stress the prevention, control and eradication of bovine contagious abortion, a disease which is exacting a heavy toll from Pennsylvania dairymen annually. A representative of the department will be available at all stops to explain the exhibit and to answer questions.

PREACHERS DECLARE SOCIETY IS SOLVENT AS JUDGE DISSOLVES

FANKLIN, Pa., May 5. — Rev. Warren E. Smith, president, and Rev. Dr. P. J. Evans, vice president of the Ministers' Protective Society, of Meadville, denies that their organization is insolvent, notwithstanding action of Judge Wickersham in the Dauphin county court, in granting an order dissolving the organization, headquarters of which are in Meadville. They explain that the action was not contested for the reason that they had no notice that it was contemplated.

Officials of the society today were on their way to Harrisburg to ask a re-hearing. They assert that no papers were served on them, and no attorney is authorized to accept service for them.

MOTHER

What tender memories are brought to mind at that wondrous word

And so, lest we forget in our hustling and jostling after gold and fame a day has been set aside for the reverential worship of Mother. Be she young or old, rich or poor, abundantly cared for or scarred in the battle of life, living amid the joys of a home or gone to an unknown land—she is Mother and for this alone she deserves our highest praise, our most reverent worship, and our utmost blessing.

Sunday May 8, 1927 Is Mother's Day

To Our Living Mothers

The name of MOTHER! sweetest name
That ever fell on mortal ear!
The love of mother! mightiest love
Which Heaven permits to flourish here.
Dissect a mother's heart and see
The properties it doth contain—
What pearls of love, what gems of hope—
A mother's heart beats not in vain.

What heart like mother's can forgive
The oft repeated wrongs of youth?
What hand like hers can lead us back
From sin to innocence and truth?
Oh, name of Mother! sweetest name
That ever fell on mortal ear!
Oh, love of Mother! mightiest love
That Heaven allows to flourish here!

To Our Mothers Gone Beyond

The days of my youth have all silently sped,
And my locks are now grown thin and gray,
My hopes like a dream in the morning have fled,
And nothing remains but decay.
Yet I seem but a child as I was long ago,
When I stood by the form of my sire,
And my dear mother sang as she rocked to and fro
In the old easy chair.

The cottage is gone which my infancy knew,
And the place is despoiled of its charms,
My friends are all gathered beneath the old yew,
And slumber in death's folded arms;
But often with rapture my bosom doth glow
As I think of my home and my sire,
And the dearest of mothers who sang long ago
In the old easy chair by the fire.

GIVE TRIBUTE SONS AND DAUGHTERS

Of all the words cherished in the recollection of man—of all the names held sacred in his memory, that of MOTHER falls upon his heart with the most sublime influence. Her tender caresses, her unceasing care, her undying love must not be forgotten—let us remember her with flowers.

No language can better express the power, the beauty, and heroism, and majesty of a Mother's love than flowers. Shall I be faithless to my MOTHER–Heaven Forbid.

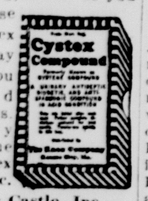

The language of flowers will express the love for your Mother better than any gift that you could get her.

Remember Her With Flowers

Bride's Brother Acts For Engineer Who Is In South America

BROOKVILLE, Pa., May 5.—Justice of the Peace Alex S. Scribner, of Brookville, officiated at one of the most unusual marriage ceremonies ever performed in this state when Mary Prudence Wilson became the bride of William Earl Felker, who is building a railroad in Colombia, South America. F. Rankin Wilson, her brother, acted as proxy for the absent engineer.

The proxy sent to Wilson was in Spanish, translated into English. It empowered Wilson to act in the marriage ceremony in place of the engineer, who was unable to leave his duties at this time.

Registrar and Recorder John C. Kelso, of Jefferson county, refused to issue a license to the proxy, having no legal authority to do so. The matter was brought before Judge William T. Darr, who issued the following order: "The court is of the opinion under all the facts and circumstances in this case, after an examination of the law, that the application for a marriage license above entitled should be granted and the clerk of the orphan's court is hereby directed to grant the application and issue a marriage license thereupon."

Maybe dull people just seem that way because they don't think it worth while to talk sense to you.

Fairview News

Members of the Fairview Grange are having great success with their play, "Two Days to Marry." They present it in Westfield, April 26, and Liberty, April 28. They will give it in East New Castle, May 6.

The Fairview school closed on April 21, after a very successful winter. Jack Houk one of the students holds a perfect attendance record for the year. The closing was celebrated by a picnic and dinner. Following the dinner the teacher, Findley Wilson, gave the program assisted by the school and S. A. Aiken, the music teacher of the school. A ball game was played between the boys of the school and Princeton. Fairview was defeated by a 14-7 score.

Misses Rhoda Davis and Myrtle Shaffer spent the afternoon of April 21, at the Fairview school.

Miss Kathern Johns and Miss Anna Hill were in New Castle Saturday.

John Lamb is able to be about his work again.

Clarence Johns of New Castle spent Sunday with his parents Mr. and Mrs. Charles Johns.

Mr. and Mrs. Mac Lewis were in New Castle Saturday.

Walter Davis of Butler spent yesterday at his home here.

Don't Squeeze Blackheads —Dissolve Them

Squeezing out blackheads makes large, ugly pores. The safe and sane way to get rid of these blemishes is to dissolve them. Get two ounces of Calonite powder from your drug store, sprinkle a little on a hot, wet cloth, rub over the blackheads, and every one, big or little, will disappear at once.

Chicago Police Get Orders To Clean Up City

Mayor Thompson Directs New Chief To Chase All Crooks In 90 Days

Hundreds Of Coppers Put Back On Beats; Captains Held Responsible

By FRED J. WALKER
International News Service Staff Correspondent

CHICAGO, May 5.—Michael Hughes, newly appointed chief of police, has begun a drastic shakeup, which already has created considerable of a commotion.

Mayor William Hale Thompson told Hughes to drive the crooks out of Chicago in 90 days. Hughes started to carry out his orders by putting hundreds of coppers back on their beats and telling precinct captains that they must clean up their districts or resign.

Hughes has one of the most difficult assignments in America, it is generally conceded, and whether he will be able to carry out his instructions is a widely discussed question.

One important result of the new administration's policies, it is believed, will be a relative indifference to minor dry law violations so that police may devote all their attention to crimes of violence.

Forget Home Brew

Thompson promised the city in his campaign speeches he would order the police to forget the average citizen's pint of home brew or case of beer so they could have more time to prevent holdups and robberies.

Chicago's geographical location is responsible for a large percentage of its crime.

Virtually every important railroad in the country has a terminus in Chicago and highways radiate from it in every direction. In addition Lake Michigan with its many steamship lines, offers quick transportation from neighboring states.

The average American city can watch a few roads and the railroad station and be reasonably sure that criminals have not escaped after a crime. Chicago police find it virtually impossible to either cut off the escape or prevent the entry of notorious criminals.

Crime Popularized

The growth of the notorious beer running gangs has done much to popularize crime as a profession in the poorer sections of the city.

During recent months the beer runners have been killing off themselves in private feuds. The "beer racket" is not as prosperous as formerly because of stricter federal supervision and many of the smaller gangs have broken up, their members turning to other means of getting easy money.

Morgan A. Collins, chief of police under Mayor William E. Dever, cited many of these facts in defending his conduct in office.

All classes in Chicago were agreed that if Hughes can actually clean up the city he will make a name for himself as a police official.

Steel Corporation Pledges $100,000 To Relief Fund

NEW YORK, May 5.—Elbert H. Gary, chairman of the board of directors, announced today that the United States Steel Corporation had subscribed $100,000 to the American Red Cross Mississippi flood relief fund.

In a telegram to John Barton Payne, chairman of the Red Cross in Washington, Gary said the total would "be apportioned through our several subsidiary companies, which will enter their respective subscriptions in cities in which they are located or have activities as a credit to the allotment to be raised by those cities."

Circus Clown Is Given Decoration

(International News Service)

PARIS, May 5.—Raoul Jouin, otherwise known as "Coco," a circus clown, has been decorated by the French government. His official title is now, "Officer of the Academy."

The son of a master of circus stables, "Coco" made his debut in Paris at the age of nine.

He is not the first clown to be honored by the French government. The Fratellini Brothers were decorated several years ago with the Academic Palms.

Piles Disappear
No Cutting Or Salves Needed

External treatments seldom banish Piles and for the very good reason that the cause is inside—bad circulation in affected parts, veins are flabby and bowel walls weakened.

To quickly and safely rid yourself of piles you must free the circulation—send fresh, healthy blood to the raw, sensitive membranes. Internal treatment is one safe method. Ointments and other external treatments can't give lasting relief.

J. S. Leonhardt, M. D., a specialist, set at work some years ago to find a real internal remedy for piles. He succeeded. He named his prescription HEM-ROID, and it has proven successful in thousands of cases—so successful that now HEM-ROID is sold by druggists under a money back guarantee. It is a harmless tablet, easy to take, and can always be found at McKee's Kut Rate Store, Eckerd's of New Castle, Inc., who wil promptly refund the purchase price if you are dissatisfied.

Just a little Kruschen in your morning cup

There's no need to envy those jolly, cheerful people who are always brimming over with fun and energy. Take two tablets of Kruschen in your morning tea or coffee. You can't taste it. You won't know you are taking salts, but you will soon notice the difference.

And why?

Because the ingredients of Kruschen Salts are necessary for healthy life. Your body must of necessity obtain these ingredients from somewhere, or you could not live. Normally your system should extract these vital salts from your food, but owing to sedentary occupation, errors of diet and overwork your system does not extract from food the correct proportions of these essential life-giving salts. Then what follows? Depression or headaches, constipation, or disordered liver, inactive kidneys, rheumatism, gout or sciatica, lumbago, or eczema—many of which arise from excess of Uric Acid, which is the cause of more troubles than many people suspect. Kruschen Salts should be your safeguard. Besides cleansing the body of impurities, they give new life and vitality to the whole system, mind and body.

Tasteless in Coffee or Tea

It's the little daily dose that does it.

Kruschen Salts

60 Tablets 60 Cents—Kruschen Salts is the biggest proprietary medicine seller in Great Britain—tasteless in tea or coffee. Get that Kruschen feeling—all drug stores.

BARROW MOTOR SALES
as Jordan Dealer in New Castle

THE Jordan Company has never been concerned over quantity production—rather Jordan has held steadfast to all the qualities of a good motor car at a medium price—being firm in the belief that to be a good motor car it must go out and render unfailing service day after day without having to be continually in the shop for repairs.

This policy has naturally attracted to the Jordan organization a group of dealers of the highest standing—men who are seeking permanence and are interested only in a motor car that they can sell with entire confidence.

Get acquainted with the men who are handling the Jordan in this city—and test the quality of the Jordan car for yourself.

FRANKLIN HIGH PUPILS PRESENT FINE OPERETTA

"Princess Chrysanthemum" Is Staged At Auditorium On Wednesday

Japanese operetta, "Princess Chrysanthemum" which was given Wednesday afternoon at the Benjamin Franklin Auditorium was a very beautiful and accomplished production of the Junior High students. It is seldom that a musical production is as well handled as the boys and girls did this operetta.

On Friday evening, May 6, at 8:00 o'clock the play will be repeated for the general public at the Franklin Auditorium, and all that have the opportunity of seeing it will find it one of the nicest productions that school children ever put on.

One of the novel features of the production is the Japanese scenes that were painted by the art department unde rthe direction of MissEmilie Salomon, Miss Hettie Welsh and Miss Jean Jackson. The frames for the three panels were made by the shop boys and the scenes were painted by the art students. The scene is very characteristic of Japanese scenes with the pagoda, bridge and snow capped mountains that is so often seen in Japanese scenes.

Besides these original scenes the stage was beautifully decorated with Japanese lanterns and flowers which the students also made. The costumes which were mostly of the kimono type and were very brilliant with oriental coloring. The costumes of the sprites in Green and the fairies in light green and lavender were very pretty in the brilliant lights of the stage. All these costumes were made by the students under the direction of Arletta Drew and Thelma Howell.

The vocal singing was under the direction of Esther Gibbons; the dramatics, Twila Kitch; the dancing, Anna Belle Randall; the orchestra, Ruth McEwen. The general committee included Maude Young, Ruth Leyda, Nanna Jenkins, Martha Weingartner, Mae McGaughy, Edna Fleming and Jean Rummell. The ushers for the occasion are Minnie Edelstein, Mary Wilson, Mildred Gress, Mildred Doyle, Violet King and Betty Maldoon. Arthur Dean has charge of the tickets.

The cast for the play follows:

Princess, Chrysanthemum—Izetta Foster.

Emperor, What-For-Whi—Francis Tinsley.

Prince So-Tru—Harry Wyman.

Prince So-Sli—Henry Wyman.

Top-Not—Dominick Asolda.

WOULD AID NEW DRAMATISTS

A stage society such as those existing in London, which gives young and unknown dramatists opportunities to have their plays presented on Sunday evenings, acted by capable actors who are occupied during the week, would be a big step forward in the development of the American theatre according to Miss Jane Cowl, star of many Broadway successes. Miss Cowl, who admits she hasn't had a vacation in five years is also an author and producer at odd times.

RESCUERS OF ENTOMBED MINERS PROVE HEROES

Mine rescue workers again have proved heroes. Trying to reach approximately four score men entombed in the Everettsville mine of the New England Fuel and Transportation company, near Lowsville, W. Va., rescuers were repeatedly driven back by the intense heat of flames caused by an afterdamp explosion. But that did not prevent them from getting men out alive. The explosion flame even reached out from the mine mouth to the tipple pictured above, killing two and fatally injuring three others working on the tipple. Arrow points to entrance of mine. The death list has been placed at 89.

SEEKS PRIZE IN CHEAPEST SHIP

In the cheapest "ship" yet constructed for such an epochal undertaking, Charles A. Lindbergh, aerial dare-devil, hopes to win $25,000 Orteig prize for the first non-stop flight between France and a point within 50 miles of New York. Only $7,500 has been expended on the monoplane, except $5,000 for special instruments and safety apparatus. He has personally supervised every detail of the plane's construction. Above is a photo of the plane and inset Lindbergh (taller) and B. F. Mahoney, builder of the "ship," which has been named "The Spirit of St. Louis." Built at San Diego, Calif. The plane's schedule calls for a flight to New York, St. Louis, prior to the trans-atlantic attempt.

Students Make Good Record

Bessemer Pupils Achieve Distinction In Tests For County Schools

OTHER NEWS NOTES OF GROWING TOWN

(Special To The News)

BESSEMER, Pa., May 5.—Fourteen students from the Bessemer High school entered the Lawrence County Inter-school Commercial Contest which was held at the Senior High School, New Castle, Pennsylvania on April 30, 1927.

The schools represented at the contest included Senior High, Benjamin Franklin, and North Street Junior High Schools of New Castle, Ellwood City High School, Union High School, Mahoning Junior High School, and Bessemer High School.

The winners of each event in the contest will go to Indiana, Pennsylvania, the latter part of the month to compete with the winners of the other counties for the state championship.

The points won by Bessemer in the contest were:

Rapid Calculation—2nd, Tony Capezutto, 8th, Jennie Brncick.

Typewriting I—6th, Savi Samsa.

Typewriting II — 3rd, Harold Swanson.

Shorthand I—3rd, Pauline Sepic.

Shorthand II—3rd, Dorothy Winland, 4th Ruth Harmon.

Bookkeeping I—3rd, Anna Rocco, 6th, Martha Tenhula.

Bookkeeping II — 3rd, Evelyn Glassel, 4th, Edna O'Neil.

The regular Chapel exercises held today at 10:00 was under the personal supervision of Miss McLaughlin. The first part of the program was conducted by members of the Rolling Pin Club. The numbers included a reading entitled, "Baking Bread," by Margarete Rice; a paper on the History of the R. P. Club by Jennie Brncick; and a musical number by a quartette composed of Gladys Stanley, Margarete Rice, Reba Cornwell, and Ocie Persing.

Due to the fact that this present week celebrates National Music Week, the next part of the program was of an entirely musical nature. Individual students gave short explanatory talks and also rendered solos on each of the following musical instruments; saxophone, viola, cello, accordion, clarinet, cornet, and violin.

A short talk by an out-of-town speaker on "Safety" completed the hours' program.

A large audience was entertained in the Bessemer High School Auditorium, Tuesday evening, May 3. The 1st, 2nd, and 6th grades performed well and pleased the onlookers. The 6th grade Glee Club should be congratulated on their work. Miss Frances Baird is in charge of the successful group of young people. Misses Lusk and Fullerton took charge of the first grades. The pageant was composed by Miss Fullerton. The second grade was under direction of Misses Weller and Hofmeister. Their pageant being composed by Miss Hofmeister and Miss Fullerton.

Those who witnessed the program thoroughly enjoyed the evening.

Tonight the third and fourth grades will present an operetta entitled, "Little Boy Blue." It is an excellent piece of work and the pupils show great ability. The sixth grade Glee Club will again entertain with their musical numbers.

The comic operetta "Bits O' Blarney" to be given by the chorus of the Senior High School will be one of the features of the music week. The operetta will be given Friday, May 6.

The cast is an excellent chosen one for every character seems to fit well in its allotted place.

Much attention has been paid to get all the mannerisms and dance steps in good order.

The second innoculation of diphtheria anti-toxin was injected into the arms of the Bessemer school children last Monday. The innoculation will be completed with the third treatment which will be given next Monday morning.

Bessemer appreciates the opportunity which the state is giving the school children to free themselves from this dreaded disease.

Want To Take A Ride?

Hippopotamii are thought to be very dumb, but "Victor" who spent his early days on the banks of the Nile, and his past few years in a mammoth cage with John Robinson's circus, is said to be the most highly educated of all behemoths. Capt. Bert Noyes has instructed Victor to perform unusual stunts and tricks, and in his race around the hipporome track he has for a jockey, Miss Karoline Eddy of the Eddy Duo, one of John Robinson's beauties.

The 104th edition of John Robinson's circus, which comes to New Castle for two exhibitions on Wednesday May 11, is brimful of new attractions and novelties. One of the outstanding features will be the augmented menagerie, with a living specimen of wild jungle beasts, brutes and birds from all portions of the world. Rare and costly giraffes from Abyssinia are included in this remarkable zoo.

New Hospital For County Home Planned

MERCER, Pa., May 5.—County commissioners and poor directors of the county are stated today to have practically agreed on the construction of a chronic hospital at the county home that will have a 40-bed capacity and will cost when finished the sum of $140,000, estimated by the architect on the job, Charles Owsley.

The set of plans agreed upon is the second drawn by the architect. The first drawn were estimated to cost beyond the sum felt by the commissioners that they could pay.

The hospital will be located contiguous to the home, so that the same heating plant now in operation by adding an additional unit may take care of it.

The hospital as planned has an entrance in the center, where is located the administration building of the plant, with wings right and left the wards of the building for men and women.

The demand for such a building at the home needs no endorsement here. For the past few years the number of chronic cases that the home has been asked to care for has been increasing steadily. The building has been recommended by three grand juries, with the jury of April instructing to go ahead and build at the price herein mentioned.

Many Delegates From Local Churches At Presbyterial

Young People Attend Special Banquet Tuesday Evening In West Middlesex

Mrs. P. P. Fisher Of Sharon Takes Charge Of Meetings Of Presbyterial

ELLWOOD CITY, Pa., May 5.—Many delegates from the local Presbyterian churches enjoyed the two-day Shenango Presbyterial which was conducted for women of the Presbytery, a similar organization to that conduct for the men. The conference took place in the First Presbyterian church of West Middlesex and a most interesting series of talks and dinners was enjoyed. The meetings opened Tuesday morning at 10:30 with Registration, devotional service and executive meeting.

Tuesday afternoon Mrs. P. P. Fisher, of Sharon, president of the Presbyterial presided at the business meeting and introduced the speaker of the day, Mrs. Ray Clarke Tillinghast.

Tuesday evening the main event was the Young People's banquet over which Mrs. James B. Cousins, of Sharon and Children's Secretary of the organization, presided. Local Young People attending, were: Miss Gertrude Zeigler, Miss Janet Gimmel, and Miss Helen Brown, who motored up with C. E. Zeigler.

Those attending the Presbyterial from the Presbyterian church were: Mesdames Thomas Wilson, Harry Brown, Joseph Moorhead and W. R. Johnston in Mrs. Herman Wilson's car; Mesdames Lewis Nickum, George Dambach, John Brennamen and E. C. Porter in Mrs. Fred Krauth's car; Mesdames J. A. Gelbach, William Kerr, William Ingham and M. W. Conway in Mrs. Stevenson's car.

A listing of the officers on the program shows that Mrs. Harry Brown of the Pittsburgh Circle is Vice President of this district; Mrs. W. B. Scott of Wampum avenue, Secretary of the White Cross and Mrs. H. W. Smith of Second street on the nominating committee.

Mrs. J. W. Mayne, a delegate from the Bell Memorial church drove Mrs. Charles Cunningham, Mrs. W. B. Scott, Mrs. M. A. Bickett and Mrs. J. A. King to the Presbyterial.

BRAEDEN CIRCLE MEETING

ELLWOOD CITY, May 5.—The regular monthly meeting of the Mary Braeden Circle of the Wurtemburg United Presbyterian church will be held this evening at the home of Mrs. Neva Koach. Leader, Mrs. William Smith.

Injunction Hearing Is Again Continued

Ellwood City Case Goes Over Until Next Wednesday Morning

Hearing on the injunction proceedings brought by the First Siebenburger-Sachen Evangelical Lutheran Saint Paul's church of Ellwood City against Rev. Johann Zultner which was scheduled for this morning was continued until next Wednesay morning following consultation with attorneys this morning.

Members of the church are trying to oust Rev .Zultner from the pastorate.

There was a large delegation present when court convened this morning consisting of witnesses for both sides and a number of spectators.

Motorists Arrange Tours With Local Motor Club Service

ELLWOOD CITY, May 5.—The Service bureau of the local Motor club has been kept busy arranging tours for the motorists who yearn to escape the confines of the city over Memorial Day or week-ends.

Members are urged to use the club to assist week-end and holiday trips. The new Roosevelt Highway, across the Northern Tier counties, through the Black forest in Potter county, and the Allegheny foothills, has a strong appeal for motorists who have not explored the natural beauties of that route.

Motor club managers suggest, for a nice week-end drive, a trip north, via New Castle, Greenville, Meadville, Cambridge Springs to Waterford, where the Roosevelt Highway begins. A trip east from Waterford through Union City, Corry, Warren, across the Allegheny river and up the mountain to Kane, with a short side trip to Mt. Jewett, the highest point in Pennsylvania.

From Kane the traveler would leave the Roosevelt Highway, and pass through small towns to DuBois, picking up the B. P. trail at this point, bringing the tourist into Pittsburgh over this beautiful route. The above is an ideal two-day journey with lovely little hotels and pleasant towns to visit. The Motor club will be pleased to assist their members in planning such a trip.

Mrs. O'Neil Is Hostess To Club

ELLWOOD CITY, Pa., May 5.—Members of the T. N. T. club and two special guests spent a pleasant evening Wednesday at he home of Mrs. C. R. O'Neil of Ewing Park.

Special guests present were Mrs. Emily Stiner and Mrs. Dan McKelvey. Concluding a series of interesting games of bridge the score favors went to Mrs. VonKrogh and Mrs. McKelvey.

Later the hostess served a delicious lunch garnished with spring flowers. Mrs. Mat Riley has invited the club to meet with her in two weeks.

Ellwood Man Held In Butler

ELLWOOD CITY, May 5.—T. C. Welsh of this city was picked up by the Butler authorities, who claim he passed worthless checks on several automobile dealers and gas stations in Butler. Welsh is said to have entered a plea of guilty to the charge and is being held for higher court.

ELLWOOD CITY, Pa., May 5.—Mrs. Wm. Thomas of Ewing Park entertained the members of the 1926 Bridge club Wednesday evening. Irene Ross, and Miss Joyce Goff. At the conclusion of play high score favors were awarded to Miss Ross and Mrs. Audley Cunningham.

Spring flowers formed the color scheme and the hostess served a dainty lunch. In two weeks the club members will be the guests of Mrs. Karl Kamperman at her home on Fifth street.

Old Soldier Dies At Son's Home

ELLWOOD CITY, May 5.—Anthony King, aged 82, passed away here last evening at the home of his son. Mr. King was one of the few remaining old soldiers, being a member of the old fife and drum corps in existence here many years ago. Full details of his death and the funeral could not be learned this morning, but will be printed in tomorrow's issue.

MOVE INTO NEW HOME TODAY

ELLWOOD CITY, May 5.—Capt. and Mrs. H. J. Jenkins of Haig street moved today into their newly completed Normandy type cottage on Riverside Drive in Ewing Park. The home is one of the most attractive of the newer dwellings in that section of the city, and the Jenkins expect to open it officially with a house-warming to their friends in the near future. The captain stated that he would positively move in today, as everyone tells him it is most unlucky to move into a new home on Friday, the 13th.

SCHOOL CLOSES

ELLWOOD CITY, May 5.—The Burnstown school in Wayne township closed a successful term of eight months yesterday. A picnic dinner served at noon by the teachers, Mrs. Sara Shafer and Miss Mildred Montieth, was much enjoyed by those present.

Executive Council Makes Plans For Summer Activities

Appoint Committees To Handle Details Of Track Meet; Announce Program

ELLWOOD CITY, Pa., May 5.—At a recent meeting of the members of the executive council for the Young People's district which took place in the Presbyterian church the following program was formulated which will take place at the June meeting of the council:

Devotionals—Harold Kerr.

Business Chairman — Charles Mayne.

Committee on Arrangements—Harold Garwig, Miss Dolly Clyde.

Rules Committee—David Jones, William King, Miss Irene Ross.

Publicity committee—Miss Sally Golden.

The above named committees will present reports at the June meeting regarding the proposed track meet to be conducted for the local church young people. There will be a swim May 16 at the Shelby pool to which all members of the district are invited. Plans are also being formulated for a Young People's picnic and tennis tournament.

At the next meeting the members will hear reports of the state council recently conducted at Williamsport from Rev. A. M. Stevenson, Miss Virginia Kerr and Frank Richards who attended the meetings.

Willing Workers Raise More Money For Church

ELLWOOD CITY, May 5.—At the regular weekly meeting of the Willing Workers of the Trinity Lutheran church yesterday the sum of $39 was turned in to the treasury as the net profits of a series of dinners conducted recently in the church by the Willing Workers.

During the absence of Mrs. Haberman this summer her place as business manager for the organization will be filled by Mrs. John Lindgren.

Rev. Maxwell Closes M. U. F. Drive Today

Gives Address To Senior High School Boys; Men Taking Part In Drive

REV. SAMUEL MAXWELL.

Rev. Samuel Maxwell of the Epworth M. E. church closed the M. U. F. campaign, conducted by the members of the Senior Hi-Y during Tuesday and Wednesday, when he gave the closing address to the boys of the Senior high school in the auditorium, this morning.

Many of New Castle's prominent business and professional men took part in this "Move Up Forward" drive by acting as interviewers of the boys in the school.

These men were working for the benefit of the boys as they talked over things connected with the making of a living. They helped the boys in determining just what kind of work they would be most successful in, when they leave school and start out for themselves.

Several boys were interviewed on Tuesday and Wednesday, while a few had the opportunity shortly before the special chapel today. Each interview lasted from 20 to 30 minutes.

The men taking part in the drive stressed the setting up of a goal in the young man's life, the choosing of a life work, and the taking up of some definite form of Christian service either as or in connection with his life work.

Those who acted as advisors and interviewers were: Dr. W. A. Womer, Attorney C. A. Patterson, De Lace Cole, Dr. S. L. Maxwell, Rev. S. E. Irvine, Rev. A. J. Randles, Dr. B. E. Sankey, Charles McGrath, Attorney A. E. Shoemaker, Fred Wolford, R. A. Eckles, Herbert S. Kirk, Attorney Walter Braham, R. E. Mellor, G. E. Lyons, Dr. R. Love and Dr. Charles Dawson.

Put On Degree Work At Grange

Candidates Given Third And Fourth Degrees At Liberty Grange

Some 300 Grangers met at the Liberty Grange hall on Tuesday evening, May 3, when candidates of the Liberty and New Wilmington Granges were given their third and fourth degree work.

The degree team of the Liberty Grange conducted the degree work and deserves much credit for the wonderful way in which they carried off the work. Miss Edyth Pfeifer deserves special mention for the way she led the degree team. It was a beautiful picture as she carried the Stars and Stripes to the platform.

The principal speakers of the evening were Master Kyle of North Beaver Grange and Master McKean of the New Wilmington Grange.

After the degree work was finished a dainty lunch was served by the women of the Grange. Those who assisted in serving the luncheon were Mrs. Sam Kildoo, Mrs. Olive Forbes, Mrs. Joseph Drake and Mrs. Russel.

The degree team consisted of the following members:

Master—Clarence Boyle.
Chaplain—William McCracken.
Overseer—J. O. Cameron.
Lecturer—Helen McCracken.
Steward—Jack Turner.
Ceres—Mrs. Fred Pfeifer.
Pomona—Ethel Emery.
Flora—Mrs. Sara Schuler.
Gatekeeper—Joe McCaslin.
Lady steward—Mrs. Anna McCracken.

Executive committee—Fred Pfeifer, Harold Cameron, Alford McFarland, Charles Patton, Joseph Drake and Holles Locke.

The captain who coached the team, Francis McCracken, was the past master of the Liberty Grange. The tableau, under the direction of Mrs. F. F. Forbes, was wonderful, each one performing his part in a fine way.

GALENA SIGNAL SELLS HOLDINGS

(International News Service)

FRANKLIN, Pa., May 5.—The Galena Signal Oil Co. of Franklin has sold its holdings in Texas to the Texas company for $590,000, it was learned here today.

The present production of the Galena company is one thousand barrels a day. However, this can be increased, oil men believe, by drilling two wells between the present ones.

PETERS ADVENTURES IN ANIMAL LAND

BY Florence Smith Vincent

ON SCOUT DUTY

The Chipmunk family had been very gloomy, indeed, but at Father Chipmunk's words joy reigned one more in the burrow. How the youngsters did chuckle and chatter, and Mr. Tamias was so pleased at his own cleverness that he frisked around like a six months old. Mother Chipmunk, though, never for one moment lost sight of the fact that they were still in danger.

"We are not safe yet, my dears!" she said. "Wait until we are well out of the burrow and on our way toward the Great Woods before we celebrate. Who knows but that any instant Weasel may change his mind, and, thinking we are keeping them waiting too long, ferret us out. Don't you think it is time that we made our get-away, husband?"

"I do! It is!" exclaimed Father Chipmunk. "Ready, children. Your mother and I will lead the way and you follow just as closely at our tails as you can. And remember no longer is this burrow any good to us. We shall have to take up our home somewhere else. Weasel, having discovered our secret exit, is likely to threaten us again at any time.

Still discussing the matter Mr. and Mrs. Chipmunk started for the door by which Fox had so recently been keeping watch. Suddenly Peter thought of something and called to them.

"Say, Mr. Tamais, are you perfectly sure that Fox has not returned?" asked he. "To be sure, Reddy saw him trotting off with Mr. Weasel, but he might have parted company with the fellow since. The two didn't seem to be very good friends. Now, I am not afraid of Cutie Fox, not one bit. I have the Lizard's tail in my pocket, you know. Would you like to have me go ahead and see if all is safe?"

Mr. Chipmunk was a truthful fellow. At Peter's words he started.

"I am a fine host, I am!" said he. "In the excitement I had forgotten all about you, Boy. I am sorry that on your first visit to our home such a dreadful thing has happened. But that is the worst of belonging to the Four-Foots. One never knows from one minute to another how things are. That is a great idea of yours. Of course, you are not afraid of Fox nor anybody else—you are protected by magic. If you will run ahead and spy out the land it will make our minds easy. Only I hate to accept your offer when your visit has been so upset."

"Nonsense! That was nothing you could help!" declared the Boy. "It is little enough for me to do; why you and Mrs. Chipmunk took me right into your home when you had known me only a short time—indeed scarcely any time at all! Would you mind holding up your tail? Thanks! Oh, excuse me, Reddy, I didn't mean to step upon your foot."

Papa and Mamma Chipmunk and the six little Chipmunks almost blocked the tunnel, but Peter managed to squeeze by them, and climbing the incline that led to the doorway of the burrow, he stepped out in the open and looked about him.

Next: "Face to Face."

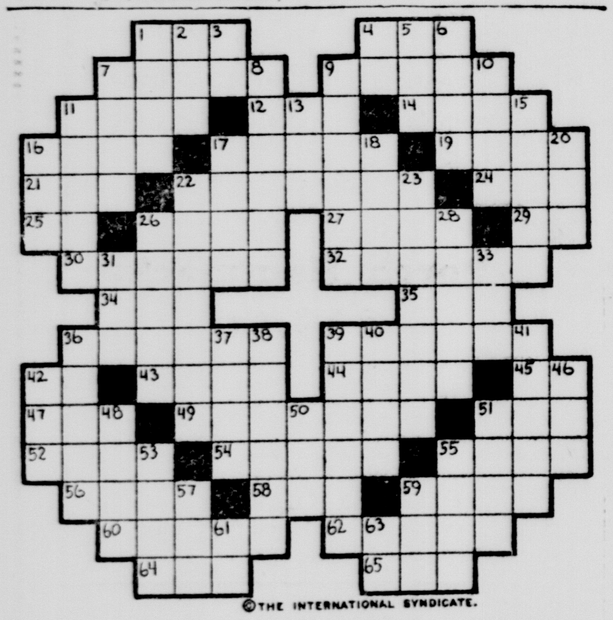

It is not necessary in the modern world that two-thirds of a person's existence should be taken up by getting his living—Miss Margaret Bondfield.

Fonck Enters Race Across Atlantic For $25,000 Prize

(International News Service)

WASHINGTON, May 5.—The National Aeronautic Association received the entry of Captain Rene Fonck, French aviator, for the $25,000 prize offered for the first Trans-Atlantic New York-Paris flight.

Under the rules, Fonck may take off any time within the next 60 days. He will use a Sikorsky S-37 twin engined plane or a Sikorsky S-36 bi-plane.

Fonck's attempt last year ended disastrously when his plane overturned and caught fire as it was taking off for Paris.

Van Gorder School Closes Successful Term With Picnic

Fine Program Presented; Pupils Having Perfect Attendance For April

A very successful term of the Van Gorder school was closed Tuesday, May 3, when pupils and patrons, to the number of 55, gathered at the school building in Perry township to enjoy a picnic dinner.

Later a fine program was presented by the pupils under the direction of their teacher Miss Ruth Mehard.

It was as follows:
America—Song by school.
Welcome Everyone—Angelo Palumbo.
"She Was Very Bad in Spelling"—Charles Van Gorder.
"Pal Of My Cradle Days"—Lucy and James Palumbo.
"Looking On the Bright Side."—Joseph Van Gorder.
"An Empty School House"—Walter Wimer.
Dialogue, "Vacation Time"—Five boys and girls.
"In A Little Spanish Town"—Kathryn Mehard.
"His Troubles Were Just Begun"—Angelo Palumbo.
"I Hope it Don't Come True"—Mary Phillippi.
"My First Speech"—Ferling Phillippi.
"A Good Bye"—Magdalene Yhelka.
"It Isn't Any Trouble Just to Smile"—Song by school.

During the picnic, the following pupils were honored as having perfect attendance for the month of April: Walter Wimer, Magdalene Yhelka, Julia Yhelka, Ferling Phillippi, Charles Van Gorder, Charles Wheman, Joseph Van Gorder, Lucy Palumbo, Charles Phillippi, Edward Palumbo, Angelo Palumbo, and Ellen Harper.

Only Two Women In Entire Show

Beau Geste Is Unique Film Production; Here For Three Days

Only two feminine players, Alice Joyce and Mary Brian, are included in the cast of "Beau Geste", Paramount's monster production of Major P. C. Wren's popular novel of the French Foreign Legion at the Scottish Rite Cathedral Auditorium, New Castle for three days commencing Thursday night, May 5, with two matinees.

Every other part in the picture is filled by a man, from Ronald Coleman, who enacts the title role, on through the other featured players, Noah Beery, Neil Hamilton, William Powell, Ralph Forbes, Norman Trevor and Victor MacLaglen.

Director Brenon kept his company on the Arizona Desert for three months shooting the desert scenes, and, while the female players do not appear in any of the battle scenes, it was at any rate, necessary that they be on location. A complete laboratory was established and all scenes previously taken were developed, printed, screened and cut, while the desert shooting was going on.

With two thousand men on location, and no other women, save a few wardrobe women, Misses Joyce and Brian felt exiled from their kind. According to Miss Brian: "Women may prefer the company of men, but with the combination of two thousand men and a hot desert for three months, a few skirts would look as good as a Spring of bubbling water."

The sale of seats for "Beau Geste" is large.

Politicians who would rather be president than right will never be either.

You can have Servel in your own refrigerator

—quickly, easily, at moderate cost

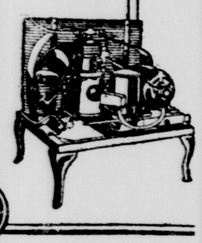

IF you have a good refrigerator in satisfactory state of repair, or decide to purchase one of the standard makes, it can be equipped with the Servel "Duplex" system for electric refrigeration quickly and at surprisingly moderate cost.

The Servel Chilling Tank is installed in the ice compartment, the "Duplex" machine in the basement or elsewhere out of the way, a few simple connections are made and you have Servel—electric refrigeration.

Once you have enjoyed the carefree convenience of this modern equipment—beyond all comparison with old-fashioned methods—once you have learned its true economy and dependability—how its crisp, dry cold keeps even the most perishable foods safe and in prime condition far longer than you ever thought possible—you will wonder how you managed so long without electric refrigeration.

Come in and let us explain the advantages offered by Servel. Or, if you prefer, telephone us and we shall be glad to call at your convenience, take a few necessary measurements and submit an estimate of cost for complete installation. Without obligation on your part, of course.

Good Refrigeration

Is An All-Year-Round Need

TO protect food is to protect life. Refrigeration — control of the temperature where food is stored—is the best protection for all kinds of food—milk, butter, meats, vegetables. It is important at all times; it is indispensable in warm weather, now close at hand.

Constant, unvarying cold, always less than 50 degrees, and dry air are the essentials of good refrigeration.

Electric Refrigeration Means Perfect Protection

Electric Refrigeration assures the constant cold and absence of moisture that keeps all kinds of food in the best of condition for many days.

TEX RICKARD PLANS FOR BIG BOUT ON JULY 9

Dempsey May Meet Paolino

Rickard Said To Have Offered Dempsey $300,000 As Purse

YANKEE STADIUM GETS BIG FIGHT

BY DAVIS J. WALSH
Sports Editor International News Service

NEW YORK, May 5.—After agreeing like a tenor and alto for upward of a week I understand that Tex Rickard and Jack Dempsey have arrived at a slight misapprehension today relative to the ex-champion's return to affairs of the fist. The difficulty arose simultaneously with Rickard's announcement that he had come to terms with Paolino on the details for the Dempsey shot. Meantime setting the rate for July 9 and the place as the Yankee stadium.

In dispensing this item of general interest, Rickard permitted himself to become a bit dubious about the sincerity of Dempsey's proclaimed come back, merely guaranteeing Paolino that his opponent either would be Dempsey or the Sharkey-Maloney winner.

Rickard seldom tips his mitt but he did that time. He has had a difference of opinion with Dempsey according to my information, and the trouble goes back to monetary matters, as trouble often does and will.

$300,000 Purse.

Rickard reached an understanding with Dempsey last week through the medium of a message to the ex-champion, inquiring whether he would be interested in $300,000. It semed that Dempsey wouldn't be surprised if he was; in fact, he still is and plans to be indefinitely.

The only trouble is that Rickard, they say, has begun to wonder whether he wasn't talking about the gate and not Dempsey's end. Anyhow, the word is that he now fears that Paolino having been taken for a ride by too many sport critis won't be regarded with sufficient seriousness as Dempsey's opponent and that he, Rickard will be left holding the old satchel.

It is my information that he has communicated that fear to Dempsey, also the inferred suggestion that Jack take a shorter price with the inevitable result. Dempsey, it is said, came back with an inquiry as to who started the talk about Paolino in the first place.

Dempsey has looked down the nostril at the ability of Paolino for some time and has made no secret of the fact that he doesn't think the Basque is worthy of his attention at this time or any other. He let Rickard in on the secret two days ago.

While he was about it he made the point clear that he would manage to bear up bravely if the Paolino program fell down altogether; that he wants only two fights and that Rickard was ribbing him up for three, provided he lasted that long, if at all. In brief he says that he would be just as well satisfied if he met the Sharkey-Maloney winner and then went onto Tunney, seemingly taking it for granted that either Sharkey or Maloney was to be taken in stride.

Twilight League Games Tonight

The second day of playing in the Twilight League will be attempted tonight on four different fields scattered throughout the county.

Ryantown will journey to South Hills for a battle with the strong South Hills team. Edenburg will help the Hillsville team in their flag raising ceremonies tonight on the Hillsville grounds. The Hillsville team, champions of the league last year will have an elaborate program preceding the game tonight.

The Radiator Colored Stars will hop down to the Cedar street field to meet the Lawrence Indies, and the Troop B outfit will journey to West Pittsburgh to clash with the Garlands.

All games will start at 6:30 o'clock.

FANS TO HELP FIX GROUNDS AT COALTOWN

The Neshannocks' baseball field at Coaltown will be put in shape Friday evening when fans, Neshannocks and members of Troop B team fare forth with pick, shovel, scraper and roller. Last week 150 Coaltown fans did considerable work and according to H. McGaffic, assistant manager, the fans will see more baseball at Coaltown this season than they ever witnessed before. The team will be managed by Joe Travers and the entire place, as always, is behind the team.

Heavy Hitting Features Games

Major League Clubs Have Bigger And Better Rally Day At Flingers Expense

WEBB CRASHES OUT FIFTH HOMER

By LES CONKLIN
International News Service Staff Correspondent

NEW YORK, May 5.—"Bigger and better rallies" is the slogan of major league sluggers today following yesterday's sensational batting bees. The Cubs scored eight runs in one inning, the Senators seven and the Browns and White Sox staged six-run rallies.

Of the 12 starting pitchers only Jess Haines and Milt Gaston, both of St. Louis, were able to travel the full nine innings, and the casualties were almost as heavy the day before. It is getting so that many managers are considering the idea of sending their pitchers to a finishing school to learn how to finish a ball game.

The crippled Senators, all of whom have been injured except Judge, scored seven runs on the Yankees in the first inning. Then they collapsed, helpless, on their crutches, but staggered on to win 7 to 4. Gehrig hit his sixth homer and is tied with Babe Ruth.

The Yanks were lucky to hold onto first place, as the Athletics were leading the Red Sox, 7 to 1, when rain washed out the score.

Earl Webb, rookie outfielder, was the star of the Cubs' eight-run rally against the Reds, hitting a homer and a double during the inning. Webb now leads the National League home run hitters with five. The Cubs won, 13 to 9.

Cards Victorious

The Cardinals took a stranglehold on the National League lead by routing the Pirates, 8 to 3. Haines chalked up his fifth victory of the season.

While the Pirates flopped to third place, the Giants nosed out Brooklyn in the tenth, 4 to 3, and jumped to second place. Jumbo Elliott, Brooklyn's 235-pound pitcher, had twirled 17 scoreless innings since his big league debut when he blew up in the ninth. Brooklyn had won five straight.

The White Sox scored six runs in the fourth inning and trounced the Tigers, 11 to 5. Bob Fothergill, Detroit's slugging outfielder, hit safely for the 16th successive game.

George Sisler stole home as the Browns lambasted the Indians, 13 to 3. The Brownies ran wild in the sixth inning, when they scored six runs. Washington, Detroit and St. Louis are now tied for fourth place.

SORDS POINTS

This Star Is "Ace" On The Bench For The "Cards"

By NORMAN E. BROWN

The Brooklyn Dodgers are hard put for an infielder. The Phils need a couple. Manager Ray Schalk of the White Sox has juggled his inner defense about since the opening of the season seeking a better combination. The Cleveland Indians are still trying to get an infield with a punch. The Washington Senators haven't had a consistent infield since Peckinpaugh booted eight in that world's series.

And one or two other clubs are badly in need of a good inner garden man.

Which draws attention once more to "Specks" Toporcer, admittedly a first class infielder, who is destined once more to warm the bench as utility man for the St. Louis Cardinals.

This is Toporcer's sixth year in big league baseball and he has yet to fill a regular berth. Only once—his first year up—has he broken into 100 or more games. And not one season has he been allowed to confine his playing to one post. He has filled in at third, second and short at various times and for various times.

The records for the past two years indicate that his hitting may be a bit weak. As the matter of fact he hung up the meek average of .250 last season. But a closer perusal of his record shows that the year in which he played the greatest number of games he stepped out and got his hits. That first year up, 1922, he played in 116 games and his batting average for the year was .324. Three years ago, while filling in at third and short he hit .313.

One has the feeling that, were he given a permanent berth and a chance to hit pitching every day of the season, he would turn in an average that would stack up with the best of them.

But as it is he warms the bench most of the time. This while the Dodgers, Phillies and one or two other clubs in his own league would like to grab him off.

And while two or three clubs in the American League could use him quite nicely, thank you.

"Specks" draws his nickname—his real name is George—because of the fact that he is forced to wear "cheaters" even on the playing field, a fact which caused many a big league scout to pass him up before the Syracuse International League club gave him a chance.

The St. Louis Cardinals gave him a tryout before he got a chance to play with the Syracuse outfit—owned by the Cardinals—then farmed him back, only to recall him after he had played 21 games and had hit .338 in those contests.

He is one of the cleanest, most likeable chaps in baseball.

Central Christians Defeat Methodists By Score 13 To 4

Christians Show Up Well In First Game Of Season On Wednesday

The Central Christian team of the Church League got away to a good start in their initial game of the year on the Lehigh Field on Wednesday night by trouncing the First Methodist team 13 to 4.

The Methodists took the lead in the first three innings but in the fourth chapter the Christians scored four runs and battered Hoover and Baker for eight more runs in the fifth inning. The attack was led by A. Bauman, Hulbert and Schiek with two hits apiece.

Schiek hurled a fine game for the Christians allowing the heavy hitting Methodists but six hits and fanning eight batters. Baker and Hoover divided pitching duties for the losers. Houston relieved Schiek in the fourth inning and pitched a steady game.

The Church League season will open on May 9th with the Christians meeting the Epworth M. E. team. The Christians were handicapped last night by the absence of Cowmeadow, Martin and Thompson.

Rocky Marshall Seeks Trouble

Ready To Fight Anybody, Any Time And Anywhere, Weygant Says

Eddie Weygant, manager of Rocky Marshall whom Eddie has tsyled his "Black Terror" is looking for action and according to Weygant he is ready to match him against any fighter of his weight, here, there or anywhere.

Ricky is a seasoned veteran, knows his stuff and doesn't become bashful when asked to fight some tough guy.

Weygant intends to visit Promoter Al Zill, Youngstown to land Rocky a place in an open air show.

Negotiations for his appearance at Pittsburgh also are under way, Eddie declares.

First Christians In Practice Game

The First Christian church team will have a practice game tonight at 6:30, daylight savings time, with the Croton A. C., on the Croton field. Manager Dart of the Christian team asks that all players report promptly.

The Christians have a first-class organization this year and they expect to win many victories. Through a slight error it was announced that the team would play last night. This was a mistake, it is tonight that the boys will gather for rehearsal.

Cardinals Win From Pirates

Frisch's Triple In Third Puts Game On Ice For Champions

PITTSBURGH UNABLE TO HIT EFFECTIVELY

PITTSBURGH, May 5.—Frankie Frisch's slugging featured the Cardinals' victory over the Pirates, 8 to 3, at Forbes field yesterday, and the Pirates are now reposing in third place in the National loop.

The St. Louisians scored in the second, third, seventh and eighth, their big spree coming in the third when they chalked up four runs against the Bucs, while the latter tallied in the second, sixth and seventh.

With the score two to one when the third opened, Frisch started a rally to increase the Cardinals' lead. It was a three-base hit and Bottomley cropped forth with a hit, scoring him.

By the time the scoring was all over the game looked like a one-sided affair and the Pirates could not overcome the lead. The best they could do was when P. Waner scored in the sixth and Cuyler in the seventh.

Golf Alphabet—F By Feg Murray

"F's" are few and far between, as far as the Golf Alphabet is concerned. Besides "Fore!" "fair way," "foursome," and club "faces," there are not so many well-known names in golf that begin with the sixth letter. But the quality of the few more than makes up for the lack of quantity. Five golfers like Fownes, Farrell, French, Mrs. Fox and Mrs. Fraser are worth five hundred who shoot nine holes in Fifty.

The current president of the United States Gold Association is the very efficient William G. Fownes, Jr., of Pittsburgh, Pa. Bill Fownes is more than a mere executive—he is a fine golfer, good enough seventeen years ago to win the United States amateur championship, being the only "F" who ever reached the finals.

When Glenna Collett "came back" to rewin the women's national title in 1925, her opponent in the final round at the S. Louis Country Club was Mrs. W. G. Fraser, of Montreal Can. As Elexa Stirling of Atlanta, Georgia, Mrs. Fraser, had won the championship three times running, in 1916, 1919, and 1920. (No tournament was held in 1917 and 1918.) She also finished second in 1921 and 1923.

So much for the champions. Now for the near champions, Johnny Farrell, of New York, is a near champion if one ever lived. He has come close to a national open title on several occasions, and has won so many lesser championships that folks have begun to call him the "Abe Mitchell of America." Mitchell, you will remember, while being one of Great Britain's greatest golfers for years, has never won the U. S. or British open. Farrel has won the title of "Champion Medalist," and, like Mitchell is a long and accurate driver. In fact he once won a $1,000 bill by outdriving Mitchell and two other pros in a contest in Florida.

Emmett French, of Ohio, is another pro who has never reached the top, yet who has many titles and course records to his credit. His wife is also a fine golfer.

Mrs. Caleb Fox, a 66-year-old grandmother, has beaten Glenna Collett twice, and has failled to qualify in only one women's national championship in the last twenty-seven years, if memory does not fail. She reached the final round in 1899.

Feg Murray Says—

Miss Ruth Hornsby of Dothan, Ala., has recently been voted the cutest girl at the Women's College of Alabama. She couldn't help batting close to 1,000 in any kind of a contest with a name like that.

Cleveland To Play Here On Saturday

New Castle Team To Meet Cleveland Tellings At Centennial Field

Many New Faces In Local Line-Up Expected; Game Called For Three O'clock

The Cleveland Tellings will meet the New Castle O. and P. league team at Centennial ball orchard on Saturday afternoon, at 3 o'clock according to schedule. It will be the second home game of the year for the locals.

The Tellings have a mighty fast aggregation of tossers this year and have divided in their two games of the season. Beaver Falls defeated the Tellings at Beaver Falls in the opening game of the year. Cleveland defeated Butler at Cleveland last Sunday.

The New Castle team has yet to break into the winning column. The game here last Saturday that served as the lid lifter was a 9 to 8 setback and the game at Youngstown on last Sunday was a 3 to 1 affair with the locals on the wrong side of the ledger.

New Castle will present some new faces to the public here Saturday. Anthony the hard hitting shortstop and former member of the local outfit has agreed to terms and will likely cavort at the short pasture against the Tellings. Swartz the new first baseman from Cincinnati is still in town and may cover the initial sation. In event that Buffington is secured from Youngstown he will be used at second base.

The New Castle club will enter a strong protest tonight at Youngstown when the O. and P. managers and officials gather for their special meeting. Carm Sacco local business manager intends to wage a stiff fight to gain possession of the hard-hitting second-sacker.

Carl Meis the pitcher from Toledo who twirled the first game of the year here will likely return to the mound. Meis has recovered from his injury and is fit and ready to take his turn in the box. Bryan the classy backstop received from Toledo will again don the mask and shin guards it was announced.

While New Castle is entertaining Cleveland the other league teams will be playing as follows: Youngstown at Beaver Falls, Erie at Massillon and Canton at Butler.

England has not developed a world's heavyweight pugilistic champion since the late Bob Fitzsimmons left Cornwall nearly thirty-five years ago.

Expect Thousand Athletes In Meet At Carnegie Tech

New Castle Among Many High Schools To Send Track Team To Meet

PITTSBURGH, Pa., May 5. — Carnegie Institute of Technology will be the host to nearly 1,000 athletes representing 60 high schools in Pennsylvania, Ohio, West Virginia, and Maryland on Saturday of this week at the Eleventh Annual Interscholastic Track and Field Meet of the institution.

The entry list for this year's classic, officials of the Institute report, is the largest since the meet was established as an annual feature for high school competition in Western Pennsylvania. Among the entries are athletes from schools Akron, Columbus, Steubenville, Salem, Ravenna, Struthers and Toledo, Ohio; Wheeling, Fairmont, and Grafton, W. Va.; Frostburg, Md.; and Washington, Uniontown, Rochester, Greensburg, Altoona, Johnstown, Oil City, Erie, Harrisburg, Pittsburgh, New Castle and numerous other cities and towns in Pennsylvania.

On account of the withdrawal of the hammer throw as an event to figure in the team scoring, competition for the cup to be awarded to the winning team is expected to be more spirited than in any previous year.

In addition to the cup offered to the winning school team, the prizes will include four cups offered to the winning relay teams in as many classes, and individual medals for winners of the events. Following the meet in the Carnegie Bowl, the visiting athletes will be guests of the Athletic Association of Carnegie at a dinner in the Carnegie Commons.

WESTMINSTER TO START SEASON

Tennis Team To Play Duquesne And Bethany Net Men This Week

(Special To The News)

NEW WILMINGTON, Pa., May 5—A two day trip confronts the Westminster College tennis squad this week. The trip, which will include stops at Duquesne University, Pittsburgh, and Bethany, W. Va., will inaugurate Westminster's season. The Dukes will be played Friday afternoon and Bethany the following day.

Westminster's racquet wielders have accomplished little this week in prepping for the tour because of rains which have made the college courts unusable. It is hoped that the rectangles are O. K. Thursday afternoon for the final practice.

The United Presbyterians are attaching the utmost importance to both contests. A defeat in either will practically ruin the chances of copping conference honors. Duquesne is expected to be very hard picking as the Bluff lads have already defeated Bethany and Grove City. A veteran team represents the school and they are picked to win loop honors.

Westminster will use five men in the singles, according to a Conference ruling. The first four men will be William Clark of New Wilmington, Captain Francis McDowell of Jamestown, William Shaffer of Youngstown, and Paul Gibson of New Kensington. The fifth choice lies between Dick Robinson of Massilon, O., a letter man and George Herriott of New Wilmington, a freshman. Captain McDowell will probably pair off with Gibson in the doubles with Shaffer and Clark matching forces.

Inter-Class Meet On Next Saturday

Westminster College Athletes To Compete On Field And Track In Class Battle

(Special To The News)

NEW WILMINGTON, Pa., May 5.—Members of the Westminster college varsity track squad will have their first opportunity of competing in competition Saturday afternoon when the annual interclass meet is staged under the direction of Coach J. W. Coleman. Plans were made to hold the meet two weeks ago but rain caused a postponement.

Coach Coleman will carefully check the performances of each member of his squad, as the data will be used in selecting the team which will be taken to Pittsburgh May 13 to face Carnegie Tech in the opening dual meet.

The coach used the stop-watch on his runners Tuesday and some of the marks were fair. Hartwell and Wilt, dash-men, stepped the century in :10.3 which was pleasing to the coach. Wilt, captain of the squad, is not yet in the best of condition due to illness. Wesley Rose, New Castle lad who returned to the squad this year after a year's absence, went good in both the mile and two-mile. He is expected to be one of Westminster's best bets throughout the season. Several other lads gave fair showings in the distance jaunts.

Quarter-mile candidates were clocked in slow time. It is in this event that the U. P.'s will be weak. Wilt took care of the event last year but is now confining his efforts to the short runs.

Johnston Explains Hunting Tag Law

All hunters who desire to hunt unprotected game can do so on a 1926 hunter's license tag, according to a letter received today by Game Protector Frank N. Johnston, from Secretary Truman.

The reason for this being allowed is that the 1927 license tags are not yet printed, and probably will not be until about August. In the meantime there will be some who will wish to go hunting groundhogs, or crows, and their 1926 tags are allowed.

Hunters who have not their 1926 tags can go to the county treasurer's office and make application. They will be given a receipt and their tag mailed when they arrive.

Vernon Kennedy

WINNER OF THE DECATHLON AT THE PENN RELAYS

By NORMAN S. BROWN

Nominating VERNON KENNEDY

Because he entered the recent Penn relay games an unknown, except to his colleagues at the Missouri State Teachers' College.

Because he emerged from the meet the winner of the coveted decathlon—or all around championship—event.

Because, in winning it, he set a new meet record by piling up a total of 7,236.5575 points, surpassing the old record of 7,169.160, established last year by Tony Plansky of Georgetown.

Because his record compares favorably with the world's decathlon point record of 7,710.775, made by Harold M. Osborne.

Because his victory rather gives the edge to the schoolmasters, Osborne also being a teacher.

Because, to win, he had to set a new record in the discuss throw and share jointly with one other entry a new record in the pole vault.

And because he gives Missouri something besides the Cardinals to talk about for a while.

The tennis clubs on the Riviera are said to have lost $125,000 the past season by reason of the absence of Suzanne Lenglen.

SPORTS DONE BROWN

By NORMAN E. BROWN.

The mighty bludgeon of Bill Lamar, "Bill the Lammer" is playing a heavy part in the steady advance of the Philadelphia Athletics to the place in the sun picked for them.

Lamar has always been a whale of a hitter. But for a trick arm that gets out of kilter occasionally and his failure to treat seriously enough the matter of keeping in condition Lamar might not have had to struggle for the better part of 12 years to get "there."

As it is he apparently has found himself after a hectic career which has carried him into the manager's office at least of ten different ball clubs. He played with all of them, excepting Washington.

It was Griffith's scout who picked him up from the sandlots of Maryland in 1915 after he had completed his studies at St. John's college and had incidentally won a rep as a ball player there.

Griffith, without giving him a chance to the Frederick club near by and the following year the Baltimore Orioles grabbed him. The Yankees bought him at the close of the 1917 season only to send him to Toledo in midseason, 1918.

That fall the Hugmen recalled him but the next spring let him go to the Boston Red Sox which team farmed him to Rochester, recalled him and sent him to Louisville. After playing 89 games there in 1920 Lamar was purchased by the Brooklyn Dodgers and hoped to land a permanent big league berth only to find himself sent to Toledo in the spring of 1921.

From his arrival until midseason 1924, when the Athletics bought him, he was the greatest asset the chance in a regular game sent him baseball makers had in the American association. His batting averages for the four years there were .348, .352, .391, .357.

When he left the A. A. pitchers held an outing, played drop the handkerchief and sent Connie one of these intricate cigaret lighters making him one of the pioneer engineers in operating one.

He broke into 87 games in the outfield for the Mackmen that year and hit a mere .330. Two years ago he romped through most of the season and hung up a .356 average.

Then last year he failed to hold the pace. Life had been too rosy. He had taken his success and what fame had come with at a bit too lightly.

This spring Lamar reported at the Ft. Myers camp in superb condition. It needed no explanation on his part to convince Connie that he had spent the winter regaining that condition. And he was very frank in stating that he meant to hold it. Perhaps the signing of Cobb and Wheat had helped him in that resolve.

Simmons and Cobb were accepted as sure shots for the Macklan outfield when the training season started. It was a toss-up as most folks saw it between Lamar, French and Wheat for the other berth.

The presence of Lamar there speaks for itself.

The Passing of "Stonewall"

by J. CARROLL MANSFIELD

SUNDOWN OF MAY 2, 1863, SAW HOWARD'S CORPS DRIVEN BACK TOWARD CHANCELLORSVILLE AFTER GEN. "STONEWALL" JACKSON'S SURPRISE ATTACK ON THE UNION RIGHT WING. FRESH FEDERAL TROOPS AND BATTERIES WERE BROUGHT UP TO OPPOSE JACKSON AND, THAT NIGHT, HOOKER DREW IN HIS LINES IN ANTICIPATION OF A RENEWED ATTACK THE NEXT DAY.

WHEN NIGHT HAD FALLEN, JACKSON WITH HIS STAFF RODE FORWARD PAST THE CONFEDERATE LINES TO RECONNOITER THE UNION POSITION. A LITTLE LATER THE PARTY CAME GALLOPING BACK AND RECEIVED A VOLLEY FROM THEIR OWN SENTRIES, WHO IN THE GLOOM HAD MISTAKEN THEM FOR A DETACHMENT OF PLEASANTON'S

N. Y. STOCKS

(International News Service)

NEW YORK, May 5.—The rally in prices was led by the motor and the railroad stocks at the beginning of trading today. Hudson, Studebaker and a few of the low-priced motor shares continued the forward movement which was in progress at the conclusion of Wednesday's session, while General Motors commanded an active market around 196½. The "Nickel Plate Merger" rails were the leaders in the railroad group, Erie duplicating its former high at 56⅜ in unusually active trading.

Speculative interest was widely extended by yesterday's sweeping advances in the market leaders, many of which sold at the best prices of the year to date. The commission houses reported a good demand for stocks from the outside points, particularly the motor, industrial and utility stocks which have performed so brilliantly in recent sessions of the market. Detroit interests were reported active buyers of Hudson Motors, at the best prices since the decline of a year or more ago.

Operations of the steel mills were reported at below 90 per cent of capacity for the United States Steel Corporation and between 75 and 80 per cent for the independents. This is a decrease of about 2 per cent since last week, and is in line with the falling off in incoming orders reported by the Iron Age yesterday. Domestic business in other lines was well up to the average of this time of year, and money supplies are probably better than at any similar period since the close of the war.

Dr. A. W. Urmson Is Given Honor

Service Division Of Consistory Makes Surprise Visit To Commander

Members of the Service Division, a group of active workers of the New Castle Scottish Rite Consistory, went to the home of their commander-in-chief, Dr. Allan W. Urmson, in Neshannock township on Wednesday evening, May 4, and presented him with a four-piece silver tea service.

The presentation was made by James P. Toler, on behalf of the service division. Dr. Urmson, though much surprised at the unexpected visitation of the 50 men who attended, responded with feeling.

The occasion of the presentation marked the close of three years of service as commander-in-chief of New Castle Consistory, years in which he was closely allied with and to the members of the service division. The tea service was suitably engraved with date and name of the donors.

The men made the trip to the Urmson home in autos leaving the Cathedral about 7:30 p. m. After a period of felicitation the men returned to the city.

Shrine Club Gives $100 To Fund For Flood Sufferers

Hundred And Fifty Shriners Enjoy Meeting Wednesday Night

In a free-will offering at the smoker and stag party of the Shrine club held in the Scottish Rite Cathedral last night over $100 was contributed towards relief of the flood sufferers of the Mississippi

This amount will be turned over to the local chapter of the Red Cross to be forwarded to those in need. It was decided to send a telegram of regret to the president of the club, Fred L. Rentz that he could not be present and enjoy the fun and contributions.

Over 150 members of the club were present and enjoyed the evening of entertainment and fun. The show presented included several Keith Circuit acts and also several selections sung by the local artists, the Castle Singers composed of George Anthony, J. O. Stritmater, R. E. Johns and Harry Evans with Edwin Lewis at the piano.

The evening ended with a buffet luncheon that was served in the East Banquet room of the Cathedral.

Plans were announced for a week end outing to be held by members of the Shrine club at Conneaut Lake on June 11-12. Various amusements and entertainment is being arranged and all hope to make this a most enjoyable event for the club and their families.

GRAY DESCRIBES MURDER SCENES IN SNYDER HOME

(Continued From Page One)

sumed the witness stand this morning to finish his melodramatic story of the vicious slaying of Albert Snyder. He sat calmly in the witness box peering through horn-rimmed glasses, seemingly none the worse from his ordeal of yesterday when he described in dreadful detail the bloody killing of the art editor.

The blonde Mrs. Ruth Brown Snyder, his co-defendant, whom he has pictured as a deliberate murderess who forced him finally to slay her sleeping husband, sat pale and shaken at her counsel's table, watching her former lover's face apprehensively. Anguish was written all over her blanched countenance. All her old spirit and defiance were gone.

Gray, under questioning of his attorney, Samuel L. Miller, proceeded with his blood-chilling story in a clear precise voice.

Courtroom Packed

The courtroom was again packed to the doors. Most of the spectators were women.

Miller continued the questioning.

Q.—Mr. Gray, last evening you told us about the burning of certain articles in the cellar of the Snyder home after the killing of Albert Snyder on morning of March 20. Please proceed with what happened. A.—I was in the room of Mrs. Brown (Mrs. Snyder's mother). Mrs. Snyder disappeared. She returned shortly and I asked her where she had been. She said she had burned my shirt, her nightgown and bathrobe in the furnace. I put on the shirt (Snyder's blue shirt which Mrs. Snyder had given him to replace his bloody one) and we went downstairs.

"What did you do next? A.—I swept around the coal bin so that my shoeprints would not show.

Q.—What else? A.—I also sprinkled ashes upon the sash-weight in order to make it appear that it had laid in the cellar for a long time.

Gray was hesitating and feeling his way.

Put Wire About Neck

Q.—What next? A.—We went upstairs. We went into the front room. It was at this time that I asked her about the revolver. She also asked me if he was dead. I said I didn't think so. I started to muss up the room and she asked me to help her put some wire around his neck. I told her I was all through. But I did try to help her. But I was so shaky and intoxicated I couldn't do anything.

The twelve jurors leaned over in their seats and peered intently at Gray. They were not missing a single word.

Q. Proceed. What next? A. I went back to her mother's room. I had more liquor in there, then I came back to the room, mussed it up and we went downstairs. We stayed there until it began to get daylight. She said I would have to leave. We went upstairs to her mother's room.

Gray stopped.

"What happened then?" asked Miller.

"She asked me to hit her over the head—we were planning to make it seem like a robbery," he went on. "I told her I could not.

Binds Woman.

"She asked me to bind her up. I bound her ankles and her hands loosely, tied the cheesecloth over her mouth. I covered her with her coat and went downstairs and left by the side door as she instructed me to."

Gray said it was getting daylight. He walked along the street to the main thoroughfare and waited for a bus.

"I met an alderly man waiting for the bus, too," he said. "We talked for a few minutes."

Gray rode to the station at Jamaica, where he inquired about the trains for New York.

"There were no trains for some time," he testified. "So I went outside and asked a taxi driver to drive me to New York. I asked him if he could change a ten-dollar bill. He could not and I gave him what change I had. (This evidence corroborated testimony previously given by the taxi driver who said Gray gave him $3.55, $3.50 for the ride and a nickel tip).

Gray said he then took a subway to Grand Central where he had breakfast and boarded a train for Syracuse.

"I tried to read, but I could not," he said. "I tried to sleep, but I couldn't."

Q. Did you try to change your appearance? A. No.

Gray said that somewhere above Poughkeepsie he went to the vestibule door and threw the brief case he was carrying into the Hudson river.

"I still had the bottle of chloroform and her watch she had given me because she said it had blood-stains on the strap," he recited.

"I threw the watch down the toilet. I also disposed of the chloroform and sleeping powders that way.

"I was pretty much in a daze," he related. "I kept thinking of what had happened."

Car Dispatcher Was Telephoning In Wrecked Mine

Pit Boss Tells Of Conversation Cut Short By Fatal Blast

ABANDON HOPE OF MINERS BEING ALIVE

Company Arranging To Compensate Dependents Of Mine Victims

BY S. I. NEIMAN
International News Service Staff Correspondent

EVERETTSVILLE, W. Va., May 5.—Wade Wilson, youthful car dispatcher, was in telephone conversation with outside offices when the explosion at the New England Fuel and Transportation Co., here snuffed out his life and those of 93 other miners, it was revealed today by John Spiker, pit boss.

While rescue crews searched the wrecked mine for the bodies of sixty-five unrecovered victims, Spiker told of events immediately preceding the terrific explosion, which was of such force as to kill three men working outside the mine mouth and wrecked the tipple on which they were at work.

Spiker's office is located at the pitmouth. It is connected by a system of signal lights with each dispatchers shanty inside mine. A few minutes before the blast Spiker said the light at Wilson's station, 4,000 feet from the entry, went out.

Last Words.

The pit boss rang Wilson's phone and the dispatcher answered. "Just a minute until I see what's the matter." Wilson told Spiker when the pit boss told him the light was out. These were the last words Wilson spoke. His body is believed to be one of the last five of twenty-nine which have been located.

"Just as Wilson finished talking a sheet of flame shot out of the mine mouth," Spiker said. "My office was enveloped in smoke and a moment later I heard the tipple collapse and crash 100 feet to the ground."

The body believed to be Wilson's but burned almost beyond possible identification was found near the phone. The bodies of two other miners, thought to be Charles Willard and Jim Murphy, were found nearby.

Convinced that no miners will be brought from the mine alive, the staff of Red Cross nurses was reduced to a minimum today. They are being kept at the mine primarily to treat injured rescue workers.

Several nurses narorwly escaped injury when a mess car being switched near the pit mouth crashed into a Red Cross tent which collapsed. An official of the mining company was the only occupant of the tent and he was not hurt.

"We are prepared to spend an unlimted amount to compensate families of the victims," George A. Wood, of Boston, vice-president of the company, said. "In addition to compensation stipulated by the state, we plan to assume the financial burden of the support of widows and the care of their children."

With Wood at the wrecked mine are J. J. McSweeney, of Baltimore, second vice-president, and P. M. Snyder, of Mt. Hope, W. Va., general manager.

Russians Threaten To Withdraw From League Conference

Russians At Economic Conference Resent Police Protection

By HARRY R. FLORY
International News Service Staff Correspondent

GENEVA, May 5.—The Russian delegation to the League of Nations economic conference today threatened withdrawal.

Resenting the Swiss precautions to protect them the Russian delegates declared they are virtual prisoners and served notice on Secretary Sir Eric Drummond that they will withdraw from the conference unless the police measures are modified.

The Russians have been compelled to ride in special automobiles with police escort and the corridors of their hotels have been under heavy guards.

Sir Eric Drummond promised to ask the Swiss authorities to make the protection less stringent, and the Russians thereupon agreed to attend the morning session of the conference.

Huge Bridge Span At Pittsburgh Is Towed By Barges

(International News Service)

PITTSBURGH, Pa., May 5.—Removed from its time honored mooring where it once provided the main thoroughfare between the downtown district and the North Side of Pittsburgh, a 450-foot section of the Sixth street bridge here was on its way to Coraopolis today.

The span was lowered on four huge steel pontoons on which had been piled large wooden blocks. The bridge portion will be convoyed by a flotilla of three tugs.

Before the span can be taken any further, however, the upper portion will have to be dismantled, engineers said, to enable the superstructure to pass under the Manchester bridge here.

Flood Relief Quota Now Nearly Reached

GROVE CITY, Pa., May 5.—Grove City's contribution to the Red Cross fund for the Mississippi river flood victims had reached a total of $482, according to the statement issued yesterday by L. E. McKay, in charge of raising the local quota of $500.

Special collections were taken at the local churches Sunday and funds were received by solicitors stationed at the local banks last Saturday. Mr. McKay stated that the local contributions would be in excess of the $500 quota, as several reports are yet to be made.

Backed By Ideals

A store or an institution is in its character and methods only a reflection of the character of those who guide it through the years.

Behind every institution formulating the ideals of its business and shaping its policies, is some personality or group to whose inspiration the structure owes its existence.

The founders of this Store, when they laid down the fundamentals of this House, had their inspiration—the ideals of Quality and Service. How well they carried out this spirit through the years of service is attested by the steady business growth.

Start Drive To Secure Funds For Defunct Bank

(International News Service)

PITTSBURGH, Pa., May 5.—A drive to secure the $140,000 contributed by officials of the Brotherhood Savings and Trust Co., here to the $320,000 fund to buy the "Bargain Bonds" from Charles E. Knapp, was under way here today following selection of a committee of five stockholders to make a new appraisal of the bank's assets.

The committee was selected at a meeting of the stockholders last night at which it was determined an effort should be made to secure a larger saving for the stockholders of the defunct institution.

Members of the committee expressed a belief they could have 25 to 50 per cent of the capital stock of the institution through the new appraisal, instead of 15 per cent the State Banking Department stated would be salvaged from the wreck.

Don't worry. If he called three times while you were out, he wasn't trying to give you anything.

King George's Pants Creased Down Sides

(International News Service)

LONDON, May 5.—King George has defied all cherished conventions.

He has had his trousers creased down the sides. He tried this seven years ago, and fashion frowned upon the idea. But in the absence of the Prince of Wales he has tried the idea again.

He has met with no supporters. And what the Prince of Wales will say remains to be seen.

Queen Mary is also attempting to set fashions. Her skirts are now less than three inches off the ground. No doubt she is imparting something to Princess Mary, but what will the Prince of Wales say?

Try Patrolman On Assault Charge

(International News Service)

PITTSBURGH, Pa., May 5.—A jury in the criminal court here today took under consideration the case of Archibald Fruth, former patrolman, charged with assaulting 17-year-old Helen Senk in a cell room last October 30.

The girl testified she had been arrested with her escort, Norman Miller, after attending a Hallowe'en party. Taken to the police station, she said, the officer attacked her.

Fruth denied the charges testifying he had taken the girl through the cellroom at her own request, after first arresting the couple for improper conduct in an automobile. He stated he had released the pair before entering the station house.

Hold Women After Big Whiskey Raid

May Unearth Gigantic Bootleg Ring In Pittsburgh District

(International News Service)

PITTSBURGH, May 5.—Federal authorities here were holding two women, one man and $150,000 worth of Canadian whiskey today following a raid last night on a home in the Oakland district.

Government agents announced the arrests would result in the uncovering of a gigantic bootleg ring involving political leaders and prominent men here.

The prohibition men said they trapped the trio in the act of carrying a bundle of whiskey from the house to a motor car.

A search of the house, the agents said, disclosed a cellar concealed by a trap door in the center of the dining room. The cellar was piled high with packages of whiskey and wine. Each package contained either quarters or pints of government sealed Canadian booze.

More than four truckloads of the illicit liquor were taken from the hidden cellar to the government warehouse.
